

BOMB PLOTTERS YET UNCAUGHT

Department of Justice Agents and
Police Still Without Definite
Clue to Their Identity

HOLD ALIEN WRITER

Alexander Brailovsky Admits Hav-
ing Been in Financial District
Shortly After Explosion

New York, Sept. 19.—Department
of justice agents and the police still
were without a definite clue tonight
as to the identity of the person or per-
sons responsible for Thursday's ex-
plosion in Wall street.

Alexander Brailovsky, a Russian
journalist, who was arrested late yes-
terday on information furnished by an
anonymous correspondent, and who
admitted having been in the financial
district a short time after the explo-
sion occurred, is still being held with-
out bail, on a charge of being an un-
desirable alien.

William J. Flynn, chief of the bur-
eau of investigation of the Department
of Justice, declared tonight that he
placed no special importance in Brail-
ovsky's arrest, but that he was being
questioned and held in accordance with
the department's plan "not to over-
look any bet" and to follow up all
"leads" that may develop in the course
of the investigation.

Look for Three Companions.

No other charge or suggestion that
Brailovsky is in any way personally
responsible for the disaster has yet
been made by the authorities. They
announced, however, that he would be
questioned further and effort made to
locate the three men with whom he
was seen talking at Pipe and Nassau
streets less than an hour after the
blast. He vehemently denies being
implicated in the supposed plot.

Death Toll Is 34.

A revised list of the dead tonight
showed that 34 persons had lost their
lives as a result of the explosion. Some
of the previous lists made the total 25.
Robert A. Pope, brother-in-law of
Edwin Fischer, who sent post-card
warnings of the disaster from Toron-
to to friends in the financial district,
was questioned for nearly two hours
today at the department of justice.
Pope turned Fischer over to the au-
thorities in Hamilton, Ont., where he is
being detained pending his extradi-
tion to this city, where he will be
questioned as to his knowledge of the
blast. Chief Flynn would not dis-
close the nature of the investigation
or say whether Pope had come volun-
tarily or in answer to a summons.
Fischer, who already has been adjudged
mentally incompetent by a lunacy
commission in Hamilton, is expected
here tomorrow.

Police investigators will question
Fischer upon his arrival, department
of justice agents said.

Chief Flynn declared there were no
new developments in the case tonight.

Buffalo, Sept. 19.—Edwin P. Fis-
cher, returning voluntarily to New York
to submit to questioning in connec-
tion with the notes he sent giving
warning of the Wall street explosion,
arrived in Buffalo at 9 o'clock tonight
from Hamilton, and left at 9:35 for
New York. He was accompanied by
two New York city detectives and an
agent of the United States depart-
ment of justice.

Italy on Trail of Bombers.

Genoa, Italy, Saturday, Sept. 18.—
Two high explosive bombs, similar to
the one that exploded in the stock
exchange here on Friday, have been
found by the police in a lively stable,
but so far the persons who hid them
there have not been discovered. The
authorities are closely following every
clue, feeling they may arrest the perpe-
trators of the outrage and possibly re-
veal an international terrorist plot,
which may, perhaps, extend to the
United States.

REFORMATORY BOYS FLEE; GUARD LATER FINDS THEM

Utica, Sept. 19.—Three inmates
of the New York State reformatory
here, who escaped at an early hour
this morning, were captured late to-
night five miles west of this city, by
Chief Guard Espey, only after a bat-
tle in which Donald Dudley of Buffa-
lo, youngest of the trio of refo-
rmatory boys shot through the right arm.
The three young "trusties," after
fleeing from the reformatory garden
to a field of grain, hid in ditches
and a haystack. When the guard lo-
cated them, Young Dudley responded
to a demand to surrender by diving
under the haystack. The other two
were shot in such a manner as to
render them unable to move. Chief
Guard Espey then brought the three
into the institution unaided.

REPORT LOWER PRICES IN MANY COMMODITIES

Washington, Sept. 19.—Twenty-
seven of the 43 standard articles
going into the American family
market basket decreased in price
between July 15 and August 15.

In making this announcement to-
day, the department of labor's bu-
reau of labor statistics made pub-
lic figures showing that during the
30-day period ending with the mid-
dle of August, the retail price of
potatoes fell 44 per cent and the
price of cabbage went down 41 per
cent. The drop in sugar prices is
placed at 14 per cent. Most kinds
of meat decreased in price.

Eggs went up 11 cents in price
during the period. With this ex-
ception and pork chops, which in-
creased five per cent, the increases
in other foodstuffs were two per
cent or less.

CLEVELAND SCENE OF BIG LEGION MEETING

Thirty Thousand Former Service
Men Expected at Annual Con-
vention Next Week

Cleveland, Ohio, Sept. 19.—Thirty
thousand former service men are ex-
pected to attend the second annual
convention of the American Legion
here on September 27, 28 and 29.

The convention, which will take up
problems of nation-wide interest, will
also provide opportunity for scores of
reunions of divisions and smaller units.
Visitors will include many distinguish-
ed men.

A parade on the opening day is to
be one of the features of the gather-
ing. All of the Legionnaires will
march. Sixty bands will furnish the
music. The size of the parade is ex-
pected to freshen memories of the vet-
erans of the time when the French
peasants stood at roadides to watch
the men of the American Expeditionary
force marching to the front.

There will be big questions to de-
cide. Among the chief of them is
that of the attitude of the legion to-
ward a bonus for the 2,000,000 mem-
bers of the legion, and the question of
a drive to bring every eligible ex-ser-
vice man within the fold. The aim
of such a campaign, leaders state,
would be to make the legion the most
powerful, non-partisan, unselfish force
in American affairs.

While various state departments of
the legion will submit other resolu-
tions for action by the national body,
the following matters are expected to
receive the most attention:

An Americanization program, having
for its purpose the assimilation of the
nation's alien population and aiding
immigrants in learning American
ideals, history and customs.

The four-fold bonus proposition:
(1) land settlement—former service
men and women to receive \$150 for
each day of service, to apply on the
purchase of land and government
projects, or loans for buying equip-
ment; (2) home aid, with \$2 for each
day of service, to apply on the pur-
chase of a home or farm; (3) voca-
tional training, with \$150 for each
day of service, to be paid within a year
after the approval of the bill; (4) cash
compensation of \$150 for each day of
service, to be paid as long as the re-
cipients are obtaining education from
the government.

MILLER-WADSWORTH TOUR IS PLANNED

Candidates Expect to Visit Every
County in the State; Cam-
paign Begins Next Monday

New York, Sept. 19.—Nathan L.
Miller and James W. Wadsworth Jr.,
Republican nominees for governor and
United States senator respectively,
will make a campaign tour which will
take them into every county in the
state. Republican state headquarters
here announced today. Addison B.
Parker of Watertown, newly-elected
chairman of the speakers' bureau of
the state committee, announced that
the opening campaign in behalf of the
state ticket would begin Monday night,
September 27. A tentative itinerary
will be mapped out next Wednesday.

Mr. Miller and Francis M. Hugo,
secretary of state, will speak from the
same platform. Theodore Roosevelt
also will tour the state in behalf of the
state ticket.

Others who have volunteered their
services and will take part in the cam-
paign are Senator Calder, former Gov-
ernor Charles S. Whitman, Elton H.
Hooker, Chauncey Depew, Speaker
Thaddeus Street of the assembly, Col-
onel William Hayward, Mrs. Douglas
Robinson, Florentine H. LaGuardia,
president of the Board of Aldermen
here, and John Lord O'Brien of Buf-
falo.

MAYOR LUNN WILL CAMPAIGN

Schenectady, Sept. 19.—Mayor
George R. Lunn, defeated by Lieuten-
ant Governor Harry Walker for United
States senator, has accepted Mr. Wal-
ker's invitation to serve on Governor
Smith's campaign committee and to
deliver campaign speeches.

HARDING LABOR STAND ENDORSED

Is Sympathetic With Cause of
Workers, Union Heads Say
After Talk With Candidate

COX IN SAN DIEGO

Continues Strenuous Campaigning
Tour—Both Nominees Sup-
port Physical Education

Marion, Ohio, Sept. 19.—Though
the sabbath, Senator Harding, Repub-
lican presidential candidate, received
a front porch delegation today, but no
speech was made, and there were no
flags, no banners, no bands.

The delegation was a hundred mem-
bers of the Grand Army of the Re-
public from Akron, Ohio, who are en
route to Indianapolis to attend the
national encampment. They were
headed by Emmett F. Taggart, past
grand commander for Ohio. The
Senator and Mrs. Harding shook
hands with each one. Tomorrow, an-
other delegation of about 400 veterans
from Northern Ohio points will stop
over here for a few hours. Senator
Harding will address them.

Harding headquarters today made
public a statement issued by Con-
gressman John I. Nolan of San Fran-
cisco, P. H. McCarthy, president of
the California Building Trades coun-
cil, and Daniel D. Sullivan, former
president of the California Federation
of Labor, following their conference
with Senator Harding a few days ago,
when the California delegation was
here. The statement said:

"We have found, after a most sat-
isfactory conference, that Warren G.
Harding is sympathetic with organ-
ized labor and its desire for legisla-
tion to care for the wants of the men,
women and children of America." It
also expressed approval of his atti-
tude as an employer toward organ-
ized labor.

Tells of First "Front Porch."

Marion churchfolk were informed
today that the "front porch" cam-
paign is not a novelty, but in fact al-
most dates from the beginning of the
Christian era.

According to Rev. George M.
Rourke of Long Beach, Cal., who
preached the morning sermon at the
First Presbyterian church, where he
was a former pastor, the first "front
porch" campaign was conducted by
the Apostle Paul.

The apostle, Rev. Rourke said, dur-
ing the first century of the Christian
era, for two years conducted a re-
ligious campaign from the front porch
of a rented house in Rome, where he
received pilgrims and spoke to them,
and wrote letters to those who could
not visit him.

Roosevelt "Out of the West"

Chicago, Sept. 19.—Lieutenant
Colonel Roosevelt plans to make an-
other speaking tour of the west in be-
half of the candidacy of Senator
Harding and Governor Coolidge, he
said tonight on his return from a trip
through several states with Raymond
Robins. He left tonight for Albany,
N. Y., to attend a special session of
the state legislature, and will return
to the west as soon as the session is
over.

Colonel Roosevelt declared he had
found an "increasing Republican sen-
timent" in all western states he vis-
ited.

Governor Cox Speaks in Southern California Today

Los Angeles, Cal., Sept. 19.—Gov-
ernor Cox of Ohio, Democratic presi-
dential candidate, passed through
here tonight on his way to open his
Southern California campaign tomor-
row at San Diego.

Leaving Oakland, where he spoke
last night, the governor spent today
traveling along the coast route. He
passed the day quietly, obtaining need-
ed rest from his rapid-fire visits in
the bay cities. He also discussed the
local campaigns with Representative
Kerner of San Diego, and Isadore
Doekwelle, Democratic national com-
mitteeman from California, who joined
the governor's train at San Jose,
to participate in the southern state
effort.

Governor Cox will speak tomorrow
noon in a San Diego theatre. Plans
for an open air address where Pres-
ident Wilson spoke about a year ago
were changed because of the condi-
tion of the governor's throat, which
was improved by today's rest, but by
the indoor meeting it was desired to
save his voice as much as possible.

The governor was due at San Diego
early tomorrow for a sightseeing tour
and reception before his noon address.
Leaving San Diego tomorrow, Gov-
ernor Cox will return to Los Angeles
for an evening address. On Tuesday,
he will speak at Long Beach and ad-
dress Los Angeles club women and the
California Editors' association in Los
Angeles, speaking later at San Bar-
nardino on his way east, through Ari-
zona, New Mexico, Colorado, Wyom-
ing and the Missouri valley states.

Both Candidate Support Universal Physical Education

Washington, Sept. 19.—Support of
the movement for universal physical
education is expressed by Senator
Harding and Governor Cox, presi-
dential candidates.

LITTLE CHANCE OF A RUSSO-POLISH TRUCE

Because of Favorable Position, Po-
land Probably Will Not Agree
to Stop Fighting

(By The Associated Press)

Riga, Latvia, Sept. 19.—After a two
hours' conference this afternoon be-
tween M. Dombalski, head of the Pol-
ish peace mission, and Adolph Joffe,
chief of the Russian Soviet delega-
tion, the opinion was expressed to The
Associated Press by the secretary of
the Polish mission that there is little
chance of a cessation of the Russo-
Polish fighting until preliminary peace
terms are agreed upon. Action at the
conference, which will endeavor to
reach an agreement on armistice
terms and formulate a treaty of peace
between Poland and Soviet Russia,
will be controlled largely by the mili-
tary situation, according to views ex-
pressed here.

The favorable military situation of
the Poles at present, which makes
their position more secure, and the
delay in the arrival of the Polish del-
egates here, coupled with the deliber-
ateness of the preliminary procedure,
have created the impression that the
conference may be long drawn-out. Un-
til the Poles are able to establish a
line which can readily be defended, it
is considered probable in some of-
ficial quarters here that Poland will
not agree to a cessation of hostil-
ities.

Constantinople, Sept. 19.—Cavalry
forces of General Wrangel, the South-
Russian anti-Bolshevik leader, have
driven back the Reds on the Oriskhor
front. It was announced here today.

PREDICT AGREEMENT IN LABOR DISPUTE

Graver Problems Between Italian
Metal Workers and Employ-
ers Believed Solved

Milan, Italy, Sept. 19.—Complete
agreement between employees and metal
workers is believed to be in prospect
as a result of the negotiations which
have been going on here. Belief that
the difficulties over the graver prob-
lems of the situation have been solved,
is expressed.

Agreement as to the dismissal of
employees has not been reached. The
employees holding this matter should
rest entirely in their hands.

Rome, Sept. 19.—Unanimous ap-
proval was given by the council of
ministers today to the policy adopted
by Premier Giolitti in the controversy
between the metal workers and their
employers. The body also decided upon
the nature of the relief and recon-
struction work in the district stricken
by the recent earthquake.

London, Sept. 19.—Three persons
have been killed and six injured as the
result of an explosion in the Infanto
powder factory at Mantua, says a
Rome dispatch to the Exchange Tele-
graph company. The explosion, which
damaged several homes, is believed to
have been caused deliberately by par-
ties unknown.

WILL ASK GOVERNOR TO ACT ON B. R. T. STRIKE

New York, Sept. 19.—Delegates
representing the Amalgamated asso-
ciation of Street and Electric Railway
Employees in the states of New
Jersey and New York, voted at a
meeting in Brooklyn today to send
three delegates to Albany to request
Governor Smith to intercede in an
effort to secure an amicable settle-
ment of the Brooklyn Rapid Transit
strike. A committee also was author-
ized to "protest to the representative
of the United States government
against the unfair treatment accord-
ed our Brooklyn members."

Local nominees of the two major par-
ties, in letters made public here to-
night by the National Physical Educa-
tion service. The letters were in
response to an inquiry by the service.

Senator Harding in his letter, point-
ed out that the war had disclosed
that between 25 and 30 per cent of
the young men examined were in-
capacitated for service and that exam-
ination of children in the public schools
has shown nearly 50 per cent have
minor or major physical deficiencies.

The Republican nominee says:
"I believe therefore that a neces-
sary task is before us—we must reme-
dy that condition. We must streng-
then our national health service, we
must not allow that service to become
dictatorial and bureaucratic, but we
must use it to educate and stimulate
action by our communities and our
citizenship."

Governor Cox said he was "in full
agreement" with the views of the ser-
vice "with reference to one of the out-
standing lessons of the war," and ad-
ded:

"We have been giving more atten-
tion to the perfection of the physical
type in farm animals than we have
in humanity. If there had been any-
thing like the prevalence of diseases
among livestock such as has been reg-
istered in the young manhood of the
country, we would have heard the
alarm sounded long ago."

SINN FEINERS LOOK FOR ARMS

Capture Twenty Autos and Compel
Drivers to Carry Them Around
to All Houses

M'SWINEY YET LIVES

Has Two Hours' Sleep, Which Re-
freshes Him Slightly, But
Still Is Very Weak

Belfast, Sept. 19.—With 20 auto-
mobiles captured from week-end
pleasure seekers, Sinn Feiners in Mid-
Tyrore Saturday carried out one of
the biggest raids for arms in the his-
tory of Ireland. Early in the after-
noon, when large numbers of persons
were starting on week-end tours a
body of men armed with revolvers
stationed themselves at the entrance
to Gortin Glens, a favorite drive, and
held up all motor cars, the passengers
being sent to the farm houses adja-
cent.

When 20 machines had been cap-
tured, 160 masked men, all heavily
armed and led by an officer, descend-
ed from the adjoining mountain side
and entered the cars, the drivers of
which, with revolvers at their heads,
were compelled to drive the raiders
around the country, visiting houses in
search of arms.

Soldiers who had been in ambush
since early morning surprised a body
of Sinn Feiners at bombing practice
in the hills today. One Republican
was killed, two were wounded, and 35
captured.

Limerick, Sept. 19.—A constabulary
patrol was ambushed near Ab-
beyfield today. Constable Mahoney
was killed and the chief constable and
another constable were wounded.

MacSwiney Passes Better Night But Still Is Extremely Weak

London, Sept. 19.—Terence Mac-
Swiney, lord mayor of Cork, passed a
somewhat better night in Brixton jail,
having had two hours' sleep, which
seemed to have refreshed him slight-
ly, says a bulletin issued by the Irish
Self-Determination league at noon to-
day, the thirty-eighth of the lord
mayor's hunger strike.

Swiney's condition today is much
better, the bulletin adds, Mac-
Swiney's condition today is much
the same as yesterday. He is extren-
ely weak, but not quite so exhausted,
and still is conscious.

Belfast, Sept. 19.—Sir Hamar
Greenwood, chief secretary for Ire-
land, has informed the magistrates
of County Louth that he can hold out
no hope that the British government
will reverse its decision in the case
of Lord Mayor MacSwiney of Cork
on a hunger strike in Brixton jail.

Cork Hunger Strikers Weaken.

Cork, Sept. 19.—The hunger strik-
ers in Cork jail were reported today
to be in an exceptionally weakened
condition, due to a bad night experi-
enced by all, especially Burke and
Powers.

The Rev. T. Carroll, of Greenag,
called at the Cork jail this evening
and notified the governor of the jail
that Joseph Kenny, one of the hunger
strikers, is an American citizen. He
said that Kenny, who was arrested on
suspicion of being an Irish Republican
soldier, had lived for many years in
Montana, and that he was the father
of seven children. Father Carroll,
who is a fellow townsman of Kenny,
said he had communicated with the
American authorities and had re-
ceived documents establishing Kenny's
American citizenship. Kenny was mar-
ried in Montana and returned to Ire-
land owing to impaired health, ac-
cording to the statement of the min-
ister.

Harold Barry, former high sheriff
of Cork, today telegraphed the arch-
bishop of Canterbury, asking the arch-
bishop to intervene with the premier
on behalf of the hunger strikers on
the ground that they had now fasted
"the 40 days and 40 nights."

WOMAN IS FOUND MURDERED NEAR SOLDIER SON'S GRAVE

South Amboy, N. J., Sept. 19.—
Search was started throughout this
section today for the murderer of Mrs.
Mary Trembowski, 56, whose body
bearing marks of strangulation, was
found yesterday near the grave of her
son, Frank, in a cemetery near here.
The body was discovered in a clump
of bushes by members of the family
who began a search when Mrs. Trem-
bowski failed to return from her cus-
tomary Friday visit to the grave of her
son, who was killed while in service
in France.

CATSKILL MAN KILLED.

New York, Sept. 19.—Albert P.
Glees, 58, of Catskill, N. Y., superin-
tendent of the American Ice company,
there, was killed, and his wife and
Mrs. Minnie Davis were injured seri-
ously today, in an automobile colli-
sion at Princes Bay, Staten Island.
Clarence Travis, of Catskill, driver of
the car in which Glees was riding,
escaped injury. George Blanchard,
owner of the other machine, was ar-
rested on a charge of homicide.

FORMER UTICAN, HELD AS MURDERER, REFUSES FOOD

Moscow, Mich., Sept. 19.—Phy-
sicians today made an unsuccessful
effort to forcibly feed Dr. Ous W.
Sedgwick of Whitehall near here,
who refused to eat or talk since
he was arrested early Thursday
morning in connection with the
death of his wife and three-year-
old daughter, Ruth. The bodies
were found on the lawn at the phy-
sician's home in Whitehall. Ex-
amining physicians said death was
due to strangulation.

Dr. Sedgwick is said to have
fought two physicians who attempt-
ed to forcibly feed him. A small
quantity of water was forced down
his throat, however.
The bodies of Mrs. Sedgwick and
her daughter will be sent to the
family home in Forestport, N. Y.,
tomorrow. Mrs. Sedgwick former-
ly was a professional singer in Utica,
N. Y.

SING SING PRISON UNDER HEAVY GUARD

Warning of Attempt to Effect Jail
Delivery Issued by New
Rochelle Police

Ossining, Sept. 19.—Sing Sing pri-
son was under heavy guard tonight to
prevent repetition of an attempt made
early today by six masked men to
shut off the prison power at the plant
of the Westchester Lighting company
in New Rochelle. Warning of what
prison officials believe was an attempt
to effect a jail delivery, was received
by Warden Lawes from New Rochelle
police.

Guards maintained a patrol about
the prison grounds and in boats along
the Hudson river until daylight to-
day. Tonight, an extra guard was
placed about the prison and in the
watch towers upon the walls. Roads
leading to the prison were brilliantly
lighted and guards were stationed at
dark spots and at points along the
river front.

Electric power for the prison is pro-
vided by a plant within the prison
walls, but plans had been made recent-
ly to use the power from the New
Rochelle plant while repairs were
made within the prison. This infor-
mation, Warden Lawes believes, was
communicated to persons outside, who
attempted to use it to liberate some
of the prisoners.

Early this morning, according to
information sent to the warden by
New Rochelle police, six masked men
entered the power plant in New Ro-
chelle, held up the night engineer,
George Benz, and demanded that he
point out the switch controlling the
lights in the prison. Benz convinced
the men the prison power was not
generated there and they went away
in an automobile.

Says Whole Thing Is a Hoax.

Mr. Vernon, Sept. 19.—The reported
holdup of the night engineer in the
New Rochelle plant of the Westches-
ter Lighting company, which caused
the placing of extra guards about Sing
Sing prison today, was a hoax, accord-
ing to F. A. Stratton, president of the
lighting company. Mr. Stratton said
tonight that an investigation disclos-
ed that "someone put one over on the
superintendent," by representing him-
self as the night engineer and notifi-
fying the superintendent of the alleged
holdup.

Information received here from
Warden Lawes was that the guards
placed about the prison as a result
of the hoax would be kept on duty to-
night and possibly longer.

Police are conducting an investiga-
tion to ascertain who impersonated
the night engineer.

MILLERAND PROBABLY IS NEXT FRENCH PRESIDENT

Paris, Sept. 19.—The election of
Premier Millerand to the presidency
of France today seems inevitable,
despite the premier's repeated decla-
ration that he is not a candidate for
office. The premier has received as-
surances from numerous groups in the
chamber of deputies and the senate
that if a revision of the French con-
stitution is necessary to give to the
president a wider range of authority
in public affairs, this will be made.
Former President Poincare and former
Premier Briand, in their writings,
have asserted that this authority
should be accorded the president.

A great demonstration is being ar-
ranged for Tuesday, when M. Miller-
and reads the letter of resignation of
president Deschanel to the chamber
of deputies.

GENERAL WOOD DECORATED.

Chicago, Sept. 19.—Major General
Leonard Wood today was decorated as
an officer of the Order of St. Maurice
and St. Lazarus by Colonel DiBarnes-
zo, Italian military attaché at Wash-
ington. The ceremony took place in
the municipal pier auditorium here
and was part of exercises in honor of
the fiftieth anniversary of the entry
of the Italian army into Rome.
The ceremony was presided by a
dinner given by the Italian chamber
of commerce of Chicago.

RACER DIES OF INJURIES.

Mount Holly, N. J., Sept. 19.—Joe
Dickerson, automobile racer of Cran-
ford, died in a hospital here today
from injuries sustained in a five-mile
auto race at a fair last Friday.

SOCIALISTS MAY RETAIN SEATS

National and State Republican
Leaders Reported to Have
Objected to Expulsion

DECISION DUE TODAY

Matter Probably Will Be Acted On
Before Special Session of Leg-
islature Meets Tonight

Albany, Sept. 19.—Indications to-
night were that the five Socialist as-
semblymen who were ousted from the
assembly last spring and re-elected in
special elections in New York districts
last week, will be allowed to retain
their seats when the legislature con-
venes tomorrow night. Speaker Thad-
deus C. Sweet of the assembly, leader
in the proceedings against the Social-
ists which resulted in their expulsion
on charges of disloyalty, had not ar-
rived early tonight for conferences
with other assemblymen, as had been
expected, but it was reported that na-
tional and state Republican leaders
made known their objection to having
the Socialists again refused their seats.

Some assemblymen, however, have
expressed themselves as opposed to
allowing the five men their seats, and
it has been reported that resolutions
have been prepared calling for their
expulsion.
A decision relative to the majority
action in the assembly is expected to
be reached tomorrow before the ses-
sion which was called by Governor
Smith to take action to relieve the
housing shortage, convenes.

Ready to Sanction Socialists.

Some of the assemblymen who vot-
ed for the expulsion of the Socialists
last spring have argued that as the
Socialist party since has removed fea-
tures of its constitution to which the
greatest objection was made, the five
men now should be allowed to retain
their seats.

Results of Yesterday's Games

NATIONAL LEAGUE

ROBINS NAB THRILLING GAME.

With Score Tied in Ninth, Brooklyn Wins from Pirates, 4 to 3.

Brooklyn, Sept. 19. — Brooklyn won today's game with Pittsburgh, 4 to 3, in a thrilling ninth inning. With the score tied, New opened the Brooklyn half of the last inning with a double. He then stole third on the first pitch and crossed the plate with the winning tally when Schmidt threw wild.

The score was tied at the end of each inning up to the final. Puffer and Cooper were batted hard in the first and each team scored two runs. Both pitchers then settled down until the sixth, when Southworth's triple and Cuthaw's single gave the Pirates a run. Johnston, first up for Brooklyn in the same inning, tied the score with a home run to the left-field stand. The teams will play off a postponed game tomorrow.

Score—
Pittsburgh .. 200001000—3
Brooklyn .. 000001001—4
Batteries—Cooper and Schmidt; Puffer and Miller.

GIANTS OUTPLAY CHAMPS.

Win in the Eleventh, 7 to 6—All Red Runs Due to Homers.

New York, Sept. 19. — New York outplayed Cincinnati today in an eleven-inning struggle, the first contest of a four-game series which may decide which team remains in the all-time hopeless chase after the Brooklyn leaders. The score was 7 to 6. The Giants won when Doyle walked and scored from first on Dugan's fumble of Snyder's hit to leftfield. All the Red runs were due to homers.

Cincinnati had victory within its grasp in the ninth, when a fast double play ended the inning. With Combs on third and Rath on second as the result of a pass and Douglas' wild throw to first, after Rath had beat out an infield hit, Daubert sent a short fly to center on which no attempt was made to score. Groh slammed out a long high fly which went just outside the foul line in the rightfield grandstand, and then drove a vicious liner at Keller, which he caught and doubled up Combs at third.

Barnes, who started for New York, lasted until the seventh, when Combs' home run, with one on base, tied the score.

Score—
Cincinnati .. 200 200 000—6
New York .. 303 000 000 01—7
Batteries—Luque, Combs and Wingo; Barnes, Douglas and Smith Snyder.

Only two games scheduled.

AMERICAN LEAGUE

CLEVELAND, TRIMS BOSTON.

Bagby Carries League Leaders to 2-0 Victory in Pitchers' Battle.

Cleveland, Sept. 19. — Cleveland defeated Boston in the first game of the series here today, 2 to 0, in a pitchers' battle between Herb Pennock and Jim Bagby. It was Bagby's 25th victory of the season. Approximately 27,000

fans set through the chilly weather to witness the game.

Bagby held Boston to four hits, two of which were made by Hooper, the first man up in the first and third innings. He never was in trouble until the ninth inning, when, with two men out, he walked Vitt and Menckey, but wound up the game by striking out Hendrix. These were the only passes he heaved, except one to Hooper intentionally in the sixth inning, and one to Menckey in the seventh. He struck out four men.

Pennock had the Indians at his mercy except for the sixth inning, when Cleveland scored both its runs. After Wagoner had lined to Scott, Speaker doubled to left and the right field wall. Smith duplicated the hit, scoring Speaker. Gardner sent a weak grounder to Pennock, who threw him out. Johnson then singled to center, and Smith completed the circuit. Sewell was called out on strikes.

With the exception of the ninth inning, only one Boston player reached second base. In the sixth inning, Brad doubled with one out. Hooper walked, but Pennock and Miller fanned.

Score—
Boston .. 000000000—0
Cleveland .. 000002000—2
Batteries—Pennock and Schang; Bagby and O'Neill.

YANKIES LOSE AGAIN.

Record St. Louis Crowd Sees Home Team Trounce New Yorkers.

St. Louis, Sept. 19. — A crowd said by club officials to be the largest in the history of the American league here, saw St. Louis defeat New York, 6 to 1, today.

New York .. 000000100—1
St. Louis .. 002200200—6
Batteries—Thormahlen, Collins and Hannah; Davis and Severid.

CHICAGO KEEPS UP THE PACE.

Apparently Tosses Away Game in Early Innings, But "Comes Back."

Chicago, Sept. 19. — Chicago kept pace with Cleveland by defeating Philadelphia, 5 to 4, today, in the first game of the series. Chicago apparently had tossed away the game in the early innings, but launched a drive in the sixth inning which drove Rommel off the mound.

Philadelphia .. 003100000—4
Chicago .. 000104000—5
Batteries—Rommel, Perry and Perkins; Williams, Wilkerson, Kerr and Schalk.

BALTIMORE WINS PENNANT.

New York, Sept. 19. — Baltimore won the New International league pennant race which ended today, leading Toronto by a margin of one and a half games. The champions won their twenty-fifth straight game today, establishing a league record. Toronto was not out of the race until Friday.

TIGERS TAKE DOUBLE BILL.

Cobb's Steal of Home Features First.

Detroit, Sept. 19. — Detroit took two games from Washington today, 9 to 7 and 3 to 2. The first game was a loosely played affair, featured by Cobb's steal of home in the second

game. Detroit bunched hits on Shaw in the first inning for three runs, a lead which Washington could not overcome.

Score, first game—
Washington .. 220002000—7
Detroit .. 023040000—9
Batteries—Eaton, Courtney and Charrett; Ehman and Manning.

Second game—
Washington .. 000001100—2
Detroit .. 200000000—3
Batteries—Saw and Pichach; Daus and Amann.

COOPERSTOWN DEFEATED.

Brown's Ranch Wins Doubleday Field Benefit Game on Saturday.

Despite the fact that Cooperstown, strengthened by the engagement of three or four players from the Mohawk valley for the game with Oneonta on Doubleday Field at Cooperstown on Saturday, Brown's aggregation took the game by the score of 11-5, Cooperstown piling up four runs in the fifth inning on two hits, coupled with many errors. There was a good attendance and the fund for the purchase of Doubleday Field as permanent home for baseball must have received quite an impetus. The committee now being engaged in securing the final thousand dollars necessary to secure the grounds.

For the visitors, Rabbitt twirled and "Old Reliable" Boylan did the receiving. The former was in good form and kept the hits of the visitors well scattered, save in the fifth, when they gathered four runs, although they managed to get another base runner across in the seventh.

The fielding honors for the Oneonta bunch were carried off by Gardner at third, who played about as steady as one often sees in the infield. Some of his stops were of the sensational order and his teammates were agreed that he did some fine work. The Oneonta team took kindly to Root's offerings and gathered some 15 safe singles. E. Weeks with four, Brown with three, and Boylan and Gardner with two each, being the chief artists with the stick. Both of Boylan's hits were two-baggers.

The Oneonta players gave their services and no allowance was made, save a small sum for gasoline, to get the team to Cooperstown. Fred Weeks came from his home at Hobart just to show his interest in the project and help. Manager Brown, as well as Cooperstown, appreciates the generosity of the members of the team. The fund for the purchase of Doubleday Field netted a goodly sum.

The street carnival in the evening, which promised to give a good return, was cut short by the rain at about 9:30 o'clock, to the regret of all. The tabulated score of the ball game follows:

ONEONTA AB. R. H. P. O. A. E.
Sullivan, 2b. 4 1 1 0 2
F. Weeks, 1f. 5 1 1 0 0

Really Not Badger at All.

R. I. Pocock, curator of mammals to the London Zoological society, has discovered what he says is a "great hoax upon the Americans, who for more than 400 years have believed they had badgers on their continent." An American badger was taken to London to make an instructive comparison, was put in a cage with some British badgers. The British badgers slept all day, the American badger all night. Doctor Pocock investigated and decided the American animal was neither badger, skunk, stoat, nor weasel. He said its skull and teeth were "wrong" for a badger—it lacked the scent gland and its resemblance to the badger was so superficial he considered it of a totally different "tribe."

New Mineral Substance.

Tonopah, Nev.—A new mineral substance, resembling asbestos, has been found in an eight-foot vein near Coal-dale, Nev. Officials of the federal bureau of mines have indicated their intention of sending experts to study the material. Experiments have proved the new substance is good for insulation and is also a good polisher for diamonds, rubies and other precious stones. It will also serve as soap, being so gritty it will cut grease. It is also said to be fireproof. Although resembling asbestos, it is said to be too light for asbestos.

New Idea for Garage.

The newest public garage has a feature serving the automobile owner a lot of annoyance which he invariably experiences in getting his car into a space assigned to him at a public garage. The new idea is to run it on a transfer truck which carries the car to the desired place and the automobile is run off the truck into its place. This arrangement also conserves floor space.

Now on the Market.

Others centrally located and well built. H. M. Ford & Son, 3 Broad street.

POLITICS GREATEST INFLUENCE OF WEEK

Outcome of Maine Election Contributes to Active Trading and Higher Range of Prices

New York, Sept. 19. — Sentimentally, if not in a more material sense, politics as expressed by the outcome of the Maine election, was regarded by impartial observers as the foremost influence of the week in the financial market.

Other factors which gave momentum to the active trading and higher range of prices, include further promising crop prospects and more liberal offerings of time money, loans into 1921 being made at the unusually low rate of eight per cent on strictly first-grade collateral.

There were no developments in the general monetary situation, however, to justify the belief that credit as a whole would soon relax. The firm policy of the Federal Reserve board, in response to the petition of important cotton interests, offered little hope of early reduction of interest and re-discount rates.

Improvements in foreign exchange was most pronounced in remittances to London and Paris. Smaller offerings of sterling bills and indications of an adjustment of the labor crisis in England and Italy, helped to stabilize rates.

Entrance of general business into the autumn season was attended by confusing conditions and conflicting reports respecting the trade outlook. Orders for fabricated steel and kindred products were subject to more cancellations, and suspension of common dividends by the Cudahy Packing and National Cattle and Suck companies suggested greater conservatism in various lines of industry.

In the stock market, pools devoted their bullish activities largely to oils and rails, the former displaying especial strength. Announcement of the proposed segregation of the Delaware, Lackawanna and Western properties naturally gave rise to rumors of similar action by other coal roads.

Foreign issues were conspicuous in the enlarged bond dealings, the new French 5s leading at a new premium of two and three-fourths per cent, and the Anglo-French 5s also rising fractionally above par.

OTSEGO COUNTY NEWS

WORCESTER ENTERTAINMENTS.

Tickets for High School Lyceum Course Now on Sale.

Worcester, Sept. 19. — The tickets for the High School Lyceum series, to be held this winter, are now on sale and it is expected that this will be about the best course ever presented here. There will be five different entertainments, the first one being given on October 6 by the Scott Bares Concert company. Following that are The American Bell Ringing quartet, November 24; Samuel W. Grathwell, lecturer, December 6; Mather Melburn entertainment, February 4, and The Wells entertainers, April 11.

This is certainly a great opportunity for the people of Worcester to hear some good entertainments through the winter and it is hoped that they will give it liberal patronage.

Birth. — To Mr. and Mrs. J. L. Aney of Newark, N. J., a son, Jack Jr., weighing seven pounds. Mr. Aney is the son of Mr. and Mrs. J. B. Aney of this place.

Born, to Mr. and Mrs. Fred Can-

nastra of Schenectady, a son. Mr. Canastra is the son of Mrs. Lucy Canastra of this village.

Fred Scofield Sold Farm. — Fred Scofield has sold his farm on the Decatur road to William Thurston of this village. Possession given about November 1.

Appointed Medical Inspector. — Friends of Dr. L. T. Genung are pleased to hear of his appointment as medical inspector of the city schools of Rhine. In this work he is obliged to give three hours a day to the work of health education.

Legion Meets Monday Night. — Last Tuesday evening a branch of the American Legion was organized here with 17 members and it is hoped to make it one of the best organizations in the county.

The next meeting will be held Monday evening and all services men eligible are urged to be present.

With the Sick. — Mrs. Earl Monk returned Saturday from Oneonta, where she submitted to an operation Wednesday for enlarged tonsils.

Mrs. Julian Palmer, who has been seriously ill for the past few days, is better, and her friends hope for recovery.

OTSEGO OCCURRENCES.

Otego, Sept. 19. — Born, Sept. 15, a seven-pound son, Ernest Delzon, to Mr.

and Mrs. Deimon Hodges. — Born, Sept. 15, a 6½-pound daughter, Gertrude Lillian, to Mr. and Mrs. Robert Reynolds. — J. H. Reynolds has bought the dwelling at Shepherds Corners, owned by C. C. Connor. Consideration, \$1,000. — Wallace Martindale has purchased the Conkling house on River street, which he will occupy as a home. — L. C. Waring has rented of E. L. Ferris his house on Church street. — Mrs. A. Nash of Balastridge is visiting friends in town. — Mrs. Sarah Aldrich left Wednesday for Binghamton, where she has a position in the city schools. — Mr. and Mrs. Wade Sherman have returned home after a visit with his parents, Mr. and Mrs. W. C. Sherman.

LAURENS.

Laurens, Sept. 19. — Born, to Mr. and Mrs. Myron Taylor, Sept. 14, a son, Ralph Edward. — Mrs. Adea, an aged lady of our village, has become unable to care for herself and is going to Oneonta to be cared for in the home of D. Hopkins. She has an auction sale of all her household goods Monday. — Regular stated meeting of Laurens chapter, No. 518, O. E. S., Monday night.

MORRIS COUPLE MARRIED.

Mrs. Agnes Greene, Bride of Porter Root Backus.

Morris, Sept. 11. — A wedding of more than usual interest occurred here on Wednesday evening, Sept. 13, at 5 o'clock, when Miss Agnes Greene, only daughter of Mr. and Mrs. Wilcox Greene, became the bride of Porter Root Backus, son of the late Allen Backus. The impressive ritual of the Methodist Episcopal church was read by Rev. Charles C. Volz, of Otego, a former pastor of the bride and groom. The ceremony was witnessed by immediate relatives and friends.

Mr. Backus is a prosperous young farmer of sterling character and highly respected.

Mr. and Mrs. Backus left on a wedding tour to Syracuse, Cortland and other places of interest. Upon their return, they expect to purchase a suitable farm, where they will make their future home. Their many friends extend congratulations and best wishes. The bride made an attractive ap-

pearance in a gown of blue satin. Following the ceremony, a delicious wedding dinner was served. The bride was the recipient of many beautiful and useful presents, including a goodly sum of money.

Mrs. Backus is a young woman of very winsome personality. She was a graduate of the Morris High school and Training class, also the Oneonta Normal, and for the past two years has been a most successful teacher in Corinth.

Miss Elsie S. Duroe.

Funeral services for Miss Elsie S. Duroe, a life-long resident of Otego county, were held Friday afternoon at her late home in this village. Rev. E. E. Hutchinson officiated and burial was in the local cemetery.

Miss Duroe died Tuesday morning after a two weeks' illness due to the infirmities of age. She was born 33 years ago in the town of New Lisbon, a daughter of the towns of J. and Jane Duroe, who came to this country from England. For a number of years she was a school teacher in New Lisbon and had spent most of her life in this vicinity. She was a member of the Baptist church and was held in high respect by all who knew her.

Miss Duroe is survived by three sisters, Miss Josephine and Mrs. Ardena Yates of Otego, and Mrs. Lucy Thurston of New Lisbon, and by one brother, Rev. Daniel Duroe, of Pittsburgh, Pa., but formerly of Oneonta.

ERIK CREEK PERSONALS.

Erik Creek, Sept. 19. — Mrs. Robert Sherman and sister, Miss Daisy Tice, have returned to their home in Clayville, after visiting among relatives here. — William Bremner has returned to New York City after spending the summer with his brother-in-law, William Craig. — George March was taken by Dr. Wagner Wednesday to the Parsonage hospital, Oneonta, where he was operated upon for nephrectomy. He is reported as doing nicely. — E. O. More of Sidney is spending a few days with his sister-in-law, Mrs. A. J. Wilsey, before leaving for California. — Mr. and Mrs. C. W. Patrick and daughter, Lela, and Mrs. John Palmader were shopping in Oneonta Wednesday afternoon. — Mr. and Mrs. C. Wilcox of Worcester and Henry Prindle of Santa Rosa, California, were guests at Mr. and Mrs. Foyd Perry's Wednesday.

DELAWARE COUNTY NEWS

HEARINGS AT STAMFORD.

Commission Reviews Claim for \$135,000 Damages Against City.

Stamford, Sept. 13. — The Schoharie County Damage commission of the New York Water Supply, Senator Kelly, Claude B. Mayham and Mr. Sheriff have been holding hearings at Stamford the past week in the Hardenberg claim for \$135,000 damages against the city of New York for property taken near Prattsville for use in the reservoir now being constructed at Gibboa for the New York Water Supply. Attorney William Grogan of Kingston was attorney for the city and Attorney Arthur Brown appeared for the Hardenberg claimants, with William D. Brinnier and Grant M. Brinnier of Kingston as counsel. The hearings were adjourned Friday and the next one will be held at Kingston.

Summer Season Nears End.

Several families from Porto Rico, who have occupied cottages at Stamford this season, were so well pleased with the town that they have arranged before their departure to come back next summer and bring their friends. Stamford has also entertained a large number of people from

Havana, Cuba. The boarding season has been a good one and several hotels are well filled for the balance of September. Churchill hall closes Monday after a very successful season.

Operation for Appendicitis.

Miss Marjorie Fink, daughter of Mr. and Mrs. Arthur Fink, was taken to Oneonta Thursday, where she underwent an operation for appendicitis at the Fox Memorial hospital. Last reports were to the effect that she is making a good recovery. Drs. J. E. Sanford and Woodworth of this place assisted in the operation, which was performed by Dr. Cutler of Oneonta.

Automobile Accident Near Shandaken.

Nicholas Young of Stamford met with a bad automobile accident near Shandaken Friday forenoon. He left Stamford that morning with two ladies from the Ithaca for a trip to Kingston and it is stated he said he would try to make a "record run" to the Colonial city. Somewhere near Shandaken he failed to make a turn in the road and the car overturned, breaking his right arm in three places below the elbow and otherwise injuring him. He was removed to the Kingston City hospital for medical attention. The two ladies were badly bruised but fortunately escaped serious injury and returned to Stamford Friday evening. Mr. Young's father is one of the owners of Churchill hall and the Rexmere, Stamford.

Bad Leak in Water Main.

For several days, there has been very low pressure in the mains of the Stamford Water company and many residents were unable to secure water. The company, after a search on Saturday, located the trouble near the reservoir, where one of the main line pipes was found broken, causing a bad leak. Workmen are engaged in making repairs and it is expected service will soon be restored. For a time, the village was without water for fire protection.

Bayonne Visitor Seriously Ill.

Mrs. James Briggs of Bayonne, N. J., is seriously ill at the home of her brother, Don Fuller, 6 South street.

Improving Cold Spring House.

S. D. Mase has started building an addition to the Cold Spring Farm inn and will make many improvements to the building.

SCREPISE AT DAVENPORT.

Alexander Shellman Remembered by Friends on Eve of Leaving Town.

Davenport, Sept. 19. — A goodly number of the friends of Alexander Shellman made him a surprise party at his home Saturday evening. Light refreshments were served and the evening was pleasantly passed in a social way. Alex leaves Monday for Clinton, where he will enter Hamilton college. Edward C. Smith also goes to Hamilton, this being his second year.

Queen Esther Society Serves Supper.

The Queen Esther society realized about \$24 from the supper it gave Friday evening in the Methodist church parlors. There were many compliments on the menu and the way it was served.

Visit in Albany.

R. L. Every, Walter J. Craig and Raymond Wheeler motored to Albany Saturday, where they were the guests of friends.

The Joyce Stores, Oneonta, have increased their business this year 30%. We have \$5,000 worth of rugs in stock. Special prices on parlor suits. 12-c-o-d

NOW FREE FROM PAIN

Lydia E. Pinkham's Vegetable Compound Frees Another Woman From Suffering.

Bayonne, N. J. — "Before I was married I suffered a great deal with periodical pains. I had pains in my side and back and also headache, and got so weak I could not do anything. I took Lydia E. Pinkham's Vegetable Compound and soon felt better. Now I am married and have two little boys. Before the first one came I was weak and nervous, could not eat and was dizzy. After I took the Vegetable Compound I could work and eat. Now I am strong and recommend your medicine to my friends." — Mrs. Anna Steva, 25 E. 17th St., Bayonne, N. J.

Women who recover their health, naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

If you need a medicine for women's ailments, try that well-known and successful remedy, Lydia E. Pinkham's Vegetable Compound. Write Lydia E. Pinkham Medicine Co. (confidential) for anything you need to know about these troubles.

SHIPS RACE HORSES BY TRUCK.

With Two Trucks Visits Various Fairs Independent of Railroads and Hotels.

"Ship by Truck," the motto of the truck makers, has been adopted by one of the owners of a string of horses entered for the races here this week and he is this season making the round of fairs at which he has entered his horses quite independent of railroads, trolleys, hotels and other public service institutions.

He has two large trucks in which he loads his three race horses with all the racing paraphernalia and with it also is carried a tent and a camping outfit, so that its owner and his family camp on the fair grounds and when each fair is over the caravan is reloaded and on they move to the next fair, to pitch their tent again until the fair is over. Sometimes when the distance and time will warrant, the owner of the outfit, "Dick" Baker, drives back and moves some of the other horsemen. Owners of race horses now consider that their horses lose their stride and their speed when driven even a short distance across country and with the increased freight rates they find it cheaper to ship by truck. It seems like one of the ironies of fate that the motor car, which is displacing so many horses, should now be used to tote the choicest of the breed from one race track to another.

Notice to Schenectady Water Users.

All persons not in the employ of the Schenectady Village Water Works company are hereby forbidden to make connections to the water mains of said company or to make any additions or alterations to pipes, stop cocks, or other fixtures, without permission from the company, as provided by the fifth sub-division of the regulations and by-laws of said company.

Schenectady Village Water Works Co., Ida L. Baldwin, President.

Dated, Sept. 3, 1920. 6t

and his own company in

THE GREEN FLAME

By Raymond C. Hill, Directed by Ernest C. Warde

DISTRIBUTED BY W. W. HODKINSON CORP.

"The Green Flame" is J. Warren Kerrigan's latest red-hot romance. It fairly sizzles with dark mystery.

The action is swift, intense, absorbing. J. Warren Kerrigan is a detective in this thrilling mystery drama. And Fritz Brunette, the adorable, plays his sweetheart. The cast represents some of the very finest artists in the film world.

Altogether a rich, lavishly-staged, finished and lightning-actioned production thoroughly measuring up to the high mark for sterling pictures which W. W. Hodkinson presents.

Modern Transportation

Will be exemplified in the highest degree at our exhibit at the Oneonta Fair this year

The outstanding feature of this exhibit that everyone interested in highway transportation of goods should be sure to see, will be the NASH QUAD, which drives and brakes on all four wheels, together with the WARNER TRAILER. These two units used together can handle six to seven tons over any road where a pair of horses can draw thirty hundred.

Our line of passenger cars is unusually complete this year and cannot be beaten for quality and value. Our exhibit has always been one of the big features of the fair and we are going to put on the best one this year we have ever shown. This is one feature of the fair you cannot afford to miss.

OUR LINE INCLUDES

Nash

With perfected valve-in-head motor

Studebaker

Over half a century of successful manufacturing experience

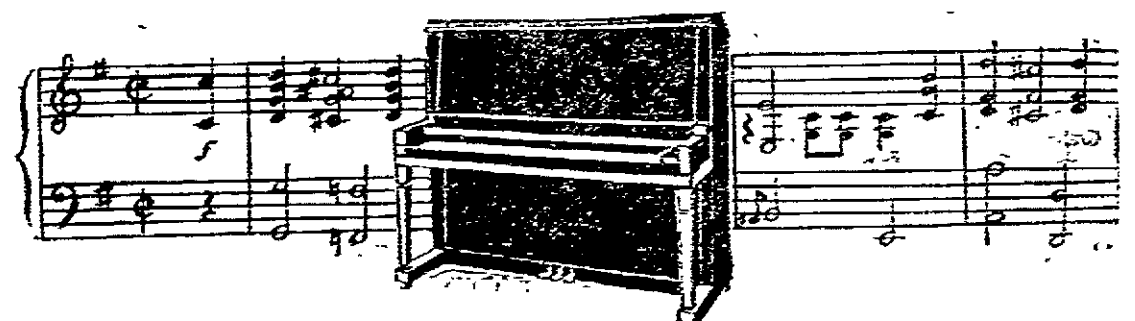

Cleveland

A medium priced Six with plenty of zip and quality

The Francis Motor Sales Co.

ONEONTA MILFORD COOPERSTOWN

PIANOS

If you are about to purchase a Piano or Piano Player you will profit by consulting us.

We have several fine instruments which we are offering at prices that will defy competition.

Our Pianos are of a standard make and are sold with an iron-bound guarantee.

Stenciled Pianos, Pianos of unknown quality and Pianos bought up for sale purposes are dear at any price. Therefore, consider well before making an investment.

THE HOUSING PROBLEM.

Appropos of the special session of the legislature, which is announced to have been called for one purpose, that of considering the housing problem, State Bureau of Municipal Information has sent out a digest of the information which has been received from thirty cities of the state, which shows that the housing problem is general and in many instances acute. The information was secured at the request of the State Conference of Mayors, and will be of general interest in not only the thirty cities named, of which Oneonta is one, but in many communities of smaller size in New York.

Twenty-three of the 39 cities report that they have a housing problem in that the demand for homes exceeds the supply. The other seven say that they have no such problem at this time.

Of the cities having a housing problem, 17 report that the situation is acute. Among the comments are the following: "It is almost impossible to find a place to rent." "Probably 400 houses short." "Demand for houses at approximately the same rental as before the war is much greater than the supply. The margin of supply is so narrow even at higher prices that difficulty is being experienced in caring for those who need homes." "Can't supply demand." "At least 100,000 apartments are needed." "Five hundred families in need of homes today." "About 150 families desire to locate in homes. Many of these at present time are living in single rooms and boarding." "Short housing for at least 250 families." "From 200 to 300 more houses needed." "Very great shortage." "Very acute. There is not a house for rent in the city. One apartment was vacant and 30 applied for it." "No great suffering but in a large number of cases, household goods have to be stored temporarily because of the shortage of rentable property."

Seventeen of the 23 cities having housing problems report that an organized effort is being made to increase the number of homes. The other six report that nothing is being done. In two cities, the Chambers of Commerce have committees working in four cities, manufacturing companies are either building new homes or assisting employees to finance construction of homes. Mayors have appointed housing commissions in two cities. Housing corporations have either been or are being organized in seven cities to finance the construction or to construct homes and sell on the installment plan. Other cities report plans as follows: "Stimulating savings in building and loan companies." "Large contracting company has project under way to build houses and sell for cash or on an installment plan with banks loaning on mortgage for about one-half the cost." "Effort made last spring to construct small houses failed due to excessive cost of construction." "Building and loan association organized." "Interest in owning homes thoroughly aroused." "The mayor set an example by building several cottages and then urged others to do the same." "Urged through all public sources that people own their own homes."

"Thirteen cities report that the number of homes being constructed this year is greater than it was last year; one says it is about the same, and fifteen report that it is less. Two report that there has been very little building both years. Six cities report that at the present rate of construction, the supply of homes will equal the demand in from two to ten years. Seven say they cannot estimate. Four answer 'never.' One reports 'the demand for labor is far in excess of the provisions for housing them.'"

Twenty-two cities report no rent-protesting. Four say they have rent protesters. One says: "Do not believe it is more so than in other cities." Another reports that "some landlords ask no more than they did five years ago while others are getting all they can while the going is good." Another reports that "rents have advanced, but not in proportion to the advance of real estate."

The bureau is now compiling the recommendations for legislation on which the city administrations have submitted.

Fined \$2 for Maliciousness.

Fred Oviatt of this city was brought before Acting Judge Lynn Hathaway in city court Saturday, charged in a warrant with violating Section 1422 of the penal law. It was alleged that on the night of September 10 he got into an altercation with the policeman (stationary) at the corner of Main and River streets and as a result the latter suffered serious injuries. Oviatt pleaded guilty to the charge, when brought before the judge and was fined \$2 and ordered to pay for the damage done to the traffic post. "This he agreed to do."

Cobleskill Fair Next Week.

The Cobleskill fair begins Monday of next week and continues five days. The Delaware and Hudson will make special rates for fair week as follows: Oneonta, \$1.67; Colliers, \$1.42; Maryland, \$1.14; Schenectady, 99 cents; Worcester, 77 cents, and East Worcester, 55 cents.

SUSPICIONS ARE UNFOUNDED

No Grounds for Intimation That Delaware County Returns Were Delayed Until Broome's Vote for Truitt Became Known — Talk of Contest Sounds Silly.

Intimation that supporters of former Mayor Frank H. Truitt of Binghamton, defeated in the primaries for the Republican nomination for representative in congress from the 54th district by John D. Clarke, may ask for a recount is contained in a dispatch sent out from Binghamton. The idea is quite probably the dream of some newspaper writer, for there appears nothing on the face of the returns to warrant any recount and there is no good reason for asking the court to act in the matter. Mr. Truitt has already congratulated Mr. Clarke and is too good a sport not to be a good loser in such a contest.

The implication contained in the dispatch that the returns from many towns of Delaware county were held back until after the returns were in from Broome in order to ascertain what majority had to be overcome comes from some one not familiar with the situation in Delaware county and the difficulty in gathering returns therefrom.

Those who have had experience in collecting primary or even election returns in Delaware county know that some of the polling places are remote from Bell telephone lines and, if they have a telephone line at all, it is a streak of rust maintained by a local company on an annual assessment of \$1.75, with the central operated by some housewife who answers calls when her morning dishes are done and the family baking is out of the oven. The returns from the last score of districts in Delaware were made available when the official returns reached the commissioners of election in Delhi Wednesday afternoon and no human power could have gotten some of them a moment earlier.

There is no likelihood of a contest if sanity and good sense prevail. The official figures, when given out, will not differ materially from those published in the press of the four counties.

RETURN FROM TRIP TO MARION

Drs. Smith and Getman Accompany New York Delegation to Home of Harding.

Dr. Julian C. Smith and Dr. Norman W. Getman, who as representatives of Otsego county accompanied the delegation of representatives of the New York State League of Republican clubs to Marion, Ohio, last Friday, returned home yesterday morning. The Oneonta men met the special train from New York city at Albany Friday evening and arrived in Marion the following morning and in the afternoon paid their respects to Senator Harding, who in a brief, straightforward address, discussed the question of Americanism and the obligations and responsibilities of the foreign-born to the country of their adoption. In particular he urged that while these citizens should not forget the country of their birth, nor neglect the natural associations one with another, they should in the broad policies of government give full allegiance to the United States, sinking all things else in their steadfast adherence to the country of which they had become citizens.

There were about 250 on the special train from New York, and in addition other delegations largely augmented the number. The party left Marion on their return trip at 3:30 Saturday afternoon, reaching Albany early Sunday morning.

The Oneontans were much impressed with the personality of Senator Harding, and the robust and evident sincerity of his utterances.

"THE STARS AND STRIPES"

Representative of War Veterans Newspaper Soliciting Subscriptions

A. J. Brand of Washington has arrived in Oneonta and will spend four weeks here canvassing for the Stars and Stripes, the weekly newspaper devoted to the interests of veterans of the World war. The paper is attempting to boost its circulation list and has a force of men working all over the country, interviewing former service men and others interested in seeing that the official organ of the A. E. F. is kept going strong.

At present, the Stars and Stripes is waging a vigorous fight in behalf of the soldier bonus measure, which will be introduced in the next session of congress. Senators and representatives are being interviewed and all possible support is being sought for the legislation.

The Stars and Stripes, which is issued weekly, is a newsy sheet and will prove of great interest to all former service men. There is a special page devoted to American Legion news and other departments for numerous subjects of interest to veterans. Mr. Brand, who is making a favorable impression about the city, expects to canvass the streets and solicit the subscriptions of the public. In addition to the newspaper, he accepts orders for the bound volume of the 71 issues of the Stars and Stripes that were published overseas, and for the official Signal Corps pictures of war scenes in France.

Franklin Man Fined \$10.

The "prosperous" drunk who when arrested Friday night by Patrolman Jones had nearly \$50 about his person, gave the name of William Brown, of Franklin, when arraigned before Acting Judge Hathaway in city court Saturday morning, after he had spent the night in the cooler. He pleaded guilty to a charge of public intoxication and left for home minus a \$10 greenback, the fine imposed by the court.

NEXT MARKET DAY TUESDAY

Public Market Opening a Decided Success with Liberal Patronage Extended Producers, Who Appeared in Goodly Numbers.

Oneonta's first venture with a Public Market on Saturday demonstrated that the project will find a good opening here and that properly directed and not held more than twice or three times a week during the season, will be successful. Little in the way of promotion was done save a belated announcement of the time and place, yet a goodly number of producers appeared, and the produce was in demand, nearly all appearing being well satisfied with the sales.

Some shortcomings, due to lack of experience, were discovered, and doubtless these will be remedied at once. The early hour announced would probably be convenient in a locality where growers depend upon that business entirely. Hereabouts the producers have dairies or other work, so that early in the morning many customers were on the scene with only one lone producer ready to serve them and many went away and others followed when the one man had sold his produce.

Later other loads arrived and most of the forenoon there were eight or ten producers ready to serve with such produce as could be gathered in the short notice given. They found numerous customers and the total sales must have been considerable in the aggregate.

It is expected that the site will be cleaned up and leveled, to avoid the annoyance ladies experienced. It is quite probable also that as soon as the right man can be found, that a market master will be named with power to arrange the producers in line and to establish a list of prices that will be fair to producer and customer alike.

Just what days the market will finally be open has not been determined, but announcement was made that the market would be open again on Tuesday, September 21. Later dates will be announced. Some think that Tuesdays and Saturdays will be ample, while others are inclined to think that for the balance of the season that three days a week will be warranted.

Those who did not find exactly what they wanted should be a bit patient, as the producers were ignorant of what the consumers would seek and did not feel warranted in bringing dressed fowls and other foodstuffs lest a loss result. It is believed that another day will witness a larger assortment and better management.

CONCERT AT SANATORIUM.

City Band Delights Invalids With Fine Music Sunday Afternoon.

Every one of the 26 inmates of the Otsego County sanatorium at Mt. Vision was able to be on the porch or sit up in their rooms and enjoy the fine concert given for their benefit by the members of the Oneonta City band, who made a special trip to Mt. Vision for the purpose Sunday afternoon. Probably only those who are away from the home and loved ones for weeks and perhaps months in quest of health can understand how thoroughly the kind thoughtfulness of the bandmen is appreciated, yet all will believe that they are grateful and that they enjoyed the music as no audience that has listened to the band this season did.

All members of the organization responded and with James Keaton Jr. directing they rendered one of their choicest programs, at the conclusion of which Miss Sweeney served delicious hot cocoa and wafers. The visitors were shown through the building and all were impressed that the country never did a more satisfactory thing than to provide this home, where health may be restored.

In addition to the inmates and attendants, there were a hundred or more residents of the locality who gathered to enjoy the concert. The motor cars to convey the band to the sanatorium were provided by Hon. Charles Smith, Owen C. Becker, esp. E. W. Elmore, Merton L. Ford, Fred N. VanWie and the Stevens Hardware company. Miss Nina V. Short, executive secretary of the County Tuberculosis committee and Mrs. H. W. Lee of the recreation committee of the general committee accompanied the band.

Before their departure, Dr. F. L. Winsor, superintendent of the institution, voiced the appreciation of the management of the inmates for the kindly deed.

One sure way to get perfect flavors for your desserts is to buy the finest fruits. But an easier, more economical way, which is just as sure to use Baker's certified flavoring extracts. 1w

WHO DID IT?

Blanche Ring was all dressed up with a beautiful new hand-bag when she shook hands with Senator Harding. They say someone had tipped Blanche off that she might be photographed. She was formerly "Dancer."

Return From European Trip.

Principal Harry W. Rockwell of the Buffalo State Normal school and Mrs. Rockwell returned from Europe on Tuesday. They toured France, Belgium and England and in France made a prolonged visit to the battle fields. Mr. and Mrs. Rockwell were in Antwerp and witnessed the presentation of medals to the American athletes by King Albert of Belgium. Returning, they made the trip from Paris to London by air, a distance of 225 miles in about two hours. —[Buffalo News.]

LOCAL MENTION.

—Born, Saturday, September 18, to Mr. and Mrs. Wendell Smith, 5 East Center street, a seven-pound daughter, Alberta Frances.

—The Ladies' Aid society of the Elm Park Methodist Episcopal church will have charge of the eating pavilion at the Central New York fair this week.

—City Clerk Close on Saturday issued a marriage license to Michael Kelly of 17 Susquehanna street and Miss Ruth E. Pock of 259 Main street. It is understood that the marriage will be solemnized in Albany today.

—There were only eight present Saturday forenoon as students of the continuation school in the High School building. As it is believed that this is far below the number of young men now working under employment certificates, the matter will be investigated with a view of ascertaining if the law is being complied with.

Meetings Today.

Members of Anna E. Wilber auxiliary, No. 4, will meet at the Main Street Baptist church this afternoon at 1 o'clock to attend the funeral of Sister Sarah Bailey.

Stated communication of Oneonta Lodge, No. 468, F. and A. M., held this evening at 8 o'clock. Work, Fellowship degree.

The regular meeting of the Queen Esther circle will be held at the home of Mrs. Berton Todd, 32 Cedar street, this evening at 7:45. There will be election of officers at this time.

Co. G band rehearsal this evening at 7:30.

All Rebekahs are requested to meet at Mrs. Hand's 424 Main street, this afternoon at 1:15 to attend the funeral of Sister Bailey. Please wear badges.

Regular meeting of Oneonta grange this evening at 8:15, standard time, at Odd Fellows' hall.

All members of the Fidelity class of the Main Street Baptist church will meet at the home of Mrs. Deuster of 11 South Fifth street at 1:15 to attend the funeral of Mrs. Bailey.

D. A. R. Picnic at Brookside.

Oneonta chapter, Daughters of the American Revolution, held a picnic luncheon Saturday afternoon at Brookside in Laurens. Mrs. Lillian Kirkland and Mrs. M. L. Ford were the hostesses and Mrs. H. W. Lee and Mrs. C. R. Morris the committee on refreshments. Delicious refreshments were served at 1:30 p. m., and afterwards the regular business meeting for the month was held, a feature being the report by Mrs. E. J. Gurney of a recent conference with Mrs. Nash, state regent, with six chapters of this vicinity meeting at Sidney, and at which many practical hints were offered to carry out. There were about 60 ladies of the chapter present at the meeting.

Jimmy Drivers Must Get Cards.

As was the custom last year, all taxi drivers who expect to carry passengers to and from the fair grounds this week must secure cards from the police department, showing that they have the necessary licenses to operate. These certificates are placed in the windshields and show that the driver has complied with all regulations, thus avoiding the possibility of being held up and compelled to show their cards. Three certificates are needed in order to operate a Jimmy line to the fair—an omnibus and chauffeur's license and a card showing that the revenue tax has been paid. Autoists expecting to operate this week are urged to call at police headquarters to secure the needed certificates.

Address at Municipal Hall.

There was a well-attended meeting yesterday afternoon at Municipal hall at which V. C. Rice of Brooklyn, representing the International Bible Students' association, spoke on the theme, "Millions Now Living Will Never Die." Mr. Rice had the close attention of his audience and at the close of his address answered many question propounded to him. He speaks this afternoon and evening in Utica and tomorrow at Boonville.

Joseph Grandjean of Binghamton will speak under the same auspices next Sunday evening at Municipal hall.

Mr. Renter

Are you as wise as your grandfather was?
Didn't he go in debt for his first place?
Did he not have a chance to die a renter?
What are you going to do?
Here is your opportunity.
Many of these places are within your reach.
Square Deal agency will help you to find them.
I have them from \$1.00 to \$10.00.
A dandy on the state road near the city, eight-room house, good bath, about two acres of land, all kinds of fruit for \$1,500.
Inquire Square Deal Agency, A. R. Sullivan, 409 Main street.

PROSPECTS NEVER BRIGHTER

FOR CENTRAL NEW YORK FAIR AT ONEONTA, OPENING TODAY.

Grounds Covered with Tents, Stables Well Filled with Race Horses, and Many Special Attractions Arriving Promptly.

Never in the history of the Central New York fair, which opens for its 1920 exhibition today, have the prospects been brighter for a large and successful fair. The throngs which always visit the grounds on Sunday prior to the opening day, were larger than ever yesterday and they found more tents in position than have been seen before even on the first day, and the late comers will have to search some to find available grounds. Some counted them and said that 31 tents are in position. The cattle sheds are rapidly filling, while the stables are well filled with fast horses. With the increased costs of transporting and living expenses, only those who have horses capable of winning money can be kept out at this season by the average horseman, so that the races should be hotly contested. The horsemen are talking of bird races—which means work for horses and drivers alike, but also spells amusement for the crowds attending.

The crowd of yesterday found amusement in walking about the grounds, visiting the cattle sheds and horse stables, and not the least of all in the sociability of the day, a fair ground being the one place where all are equal and all unite in enjoying the day.

Near the east entrance to the Liberal Arts building, a big platform has been erected for the Endicott-Johnson band and chorus, which are to give a concert on Thursday and give a free concert for the benefit of the throngs that will be in attendance. This is a stroke of enterprise that will be appreciated and enjoyed by the fair attendants.

The special free attractions provided for the roof garden are more numerous than ever and Director General Wilber, who spends his odd moments in searching out the best to be had, thinks they have never been surpassed. They will be seen each day of the fair after today.

Today is opening day and it is hoped that everybody will have their entries in place and their arrangements completed by night, so that everything will be in readiness to give the visitors on Tuesday a fine exhibition unmarred by late arrivals or delays.

COMMUNITY DANCE A SUCCESS.

Large Attendance at Open-Air Concert and Hop Saturday Evening.

One of the pleasantest of out-door public entertainments in Oneonta the present season was the community hop, which was held Saturday evening on Grand street, at the corner of Main. From 8 o'clock until rain at about 9:30 compelled adjournment, the street for half a block was filled with dancers and the sidewalks on either side with spectators. Excellent music was furnished by Company G band.

The occasion was one of great enjoyment to all present. The music was first class, the attendance large and orderly and the event altogether one with which spectators and participants alike were delighted. Already many have expressed a desire to have a second community dance before the season closes. The committee of arrangements from the board of aldermen desires to express its thanks to Father Noonan for his kindness and courtesy in providing space and seats for the band upon the lawn of St. Mary's church.

"CAPPY RICKS" TODAY.

Champion Co. Open at Oneonta Theatre This Afternoon With Great Play.

Anxious hundreds await the opening performance at the Oneonta theatre today of popular Charles K. Champion and his excellent company of artists. Mr. Champion is one of the best liked and most popular of all the stock stars who visit this city. This popularity is of long standing.

For today, matinee and night, the first of the great plays to be presented, will give the patrons of the Oneonta theatre the opportunity to see the greatest of all the Oliver Morosco plays.

The reference is made to "Cappy Ricks," surely a play not to be missed, and sure to be enjoyed by every one of the countless friends who may be on hand to give welcome to Champion and his talented organization.

Tomorrow afternoon and night the company will offer "Daddy Long-Legs." Seats are now selling for the entire week.

Notice to the Public.

People, do you realize that the Apperson 8, with 59 less parts, is the most wonderful car for the money that travels the highway? This car has a wheel base of 139 inches and will make a turn in 35 1/2 feet. It weighs only 3,300 pounds and gets 15 miles on a gallon of gas. For demonstrations see John R. Todd, Oneonta, phone 12. BE EVERY MAN A BOOSTER

CEGES N. J. McKENNA ADDRESS-ING CITIZENS NOON-DAY

L. McKEGON

A Winner Never Knocks and a Knock-er Never Wins Says the Community Spirit Expert in Talk to Oneontans—Chamber of Commerce' Needs Every Citizen.

"Every man, woman and child in Oneonta should get behind jobs Chamber of Commerce and give it liberty and united support and joint action can be made for what you want it to be," was the message given to citizens by Nelson J. McKenna, who with Mrs. McKenna is making a tour of the continent, representing the Chamber at San Fernando, Cal., and who addressed a noon-day luncheon of the local Chamber held at Ward's cafeteria Saturday. Perhaps it is not feasible in Oneonta, but in our village when a stranger arrives who has the time, we take him in a motor car and show him about our community. We take the convalescents in the hospital out for an airing and our merchants customarily send their motor cars to the club and gather up the children and take them for a drive in the country, said the speaker later in his address. We have and your city should have the support even to the extent of financial contributions if needed of non members. Community work is the best paying investment any resident can make.

It was an inspiring talk that Mr. McKenna gave and it is to be regretted that there were not three hundred present to hear it at least instead of less than a third of that number. Mr. Ward served a substantial luncheon that all enjoyed. At its close, it was found that the dining room was too light to see the moving pictures which Mr. McKenna had to show and the kind proffer of the Y. M. C. A. rooms where dark curtains and a screen were available, made by Secretary Lange, was gratefully accepted and the party adjourned to the Y building, where the pictures were seen and the short plucky address of Mr. McKenna given.

Two reels were shown, one of the village of San Fernando and the valley, showing what the Chamber has done there and what irrigation has done for the valley and the other of the municipally-owned certified milk plant from the cows in the pasture to the delivery of the milk to the consumer. Both were keenly enjoyed.

Among the spiky observations made by Mr. McKenna might be quoted the following:

I believe that a man should be proud of the city in which he lives and that he should so live that the city is proud that he is living in it.

A nickel a week is better than nothing a year.

Pay to the savings account as you pay a bill then forget all about it. Don't be a copy cat.

A winner never knocks and a knock-er never wins.

If you don't like the music of the hammer, don't carry one.

If you saw a small fire starting in the place where you were employed would you refuse to put it out because you weren't hired to put out fires?

Everybody likes a clean town.

Let us have a town everybody likes.

DEMOCRATIC CLUB ORGANIZES.

Alderman Clark Chairman Saturday

—R. T. Coyle Elected President.

There was a good attendance at the meeting held Saturday evening by the Democrats of Oneonta for the purpose of organization at the Wilber house, corner Main street and Ford avenue. Cigars and other light refreshments were served and the club proceeded to organize by the election of Roger T. Coyle as president, M. Roy Bates as vice president, Alfred V. Carr secretary and Lowell S. Huntington treasurer. Later announcement will be made of the date of the next meeting.

MAYOR G. R. LUNA IN ONEONTA

Will Speak for Democrats of County on Fair Grounds Wednesday Afternoon.

Announcement was made yesterday by Hon. Chester A. Miller, chairman of the Otsego County Democratic committee, that Mayor George R. Luna of Schenectady would be in Oneonta Wednesday, and in the afternoon would deliver an address on the political issues of the day from the roof garden at the fair grounds.

The presence of Mayor Luna at the fair will doubtless attract a large number of visitors, not only of members of his party, but of other political faith. Entering the political arena as mayor of Schenectady, he later was Democratic representative in congress, in which body he was a member of the committee on military affairs and during the war represented the national administration in the state. He is now serving his third term as mayor of Schenectady, and in the recent primary campaign was candidate for the nomination for United States senator against Lieutenant Governor Walker, whom he loyally supports. He is a speaker of unusual ability, and of conceded fairness; and he will be heartily welcomed to Oneonta.

LUTHERAN SYNOD CONVENES.

First Session Will Be Held This Evening at Church on Grove Street.

A large number of clergymen, delegates and other visitors, representing the 150 Lutheran churches comprised in the New York synod, are expected to arrive in Oneonta today, and the first session will be held at the Church of the Atonement this evening.

The program this evening will include greetings by Mayor A. E. Capriery in behalf of the city and by Rev. P. M. Luther for the local church. The response will be by Rev. Herbert Finch, secretary of the synod. The sermon of the evening will be by Rev. M. G. Schever, D. D., secretary of the United Lutheran church of America.

For full wall papering and painting now is the time to select the paper and the paint so that everything will be ready at hand when you want it. Wall papers for all requirements. Kenneth W. Goldthwaite, Main and Broad streets, Oneonta, N. Y.

Suedeine Coats

Suedeine is soft as Mocha, and nearly as strong as leather—containing far more wear than the ordinary coating. It is the latest material for street-wear coats. It resembles closely a sturdy, soft leather.

Suedeine Coats are stylish, serviceable, dependable. They are ideal for college, shopping or street wear. They are thoroughly fashionable and we recommend them highly for utility.

Our full line of Coats, Suits, Dresses, Separate Skirts and Furs is here and on display.

CHOPS WOOD ON
HIS 83RD BIRTHDAY

John Burroughs, photographed on his eighty-third birthday chopping wood with which to boil maple sap to sugar for his birthday feast. Many friends called at Yuma Farm Inn, Esopus, N. Y., to congratulate the most famous American naturalist and wish him "many more."

DIES SUDDENLY OF APOPLEXY.

Mrs. Calphurnia Ellis of Schenectady, Expirant at Home of Sister in Ontario.

Mrs. Calphurnia Ellis, who for some time had been visiting relatives in Ontario and Davenport, died suddenly on Saturday afternoon at the home of her brother-in-law and sister, Mr. and Mrs. Willard J. Brooks, 7 Baker street. Mrs. Ellis, who on the previous Tuesday had come to this city from Davenport, had been somewhat ailing, but for the previous few days had been feeling better. Saturday she was about the house as usual and at about half past three o'clock in the afternoon went to her room. About an hour later Mrs. Brooks opened the door to speak to her and found her lying dead upon the floor. Dr. Latcher was summoned and as coroner's physician gave a certificate of death from apoplexy, and the body was taken that evening by Undertaker Tillapaugh of Schenectady to the home of a daughter, Mrs. Charles Bellows of that village, with whom she resided.

Mrs. Ellis was a native of Davenport and a daughter of Joseph and Nancy (Avery) Ellis. She was 81 years of age, and since the death of her husband, William Ellis, she had resided Schenectady. She is survived by three daughters, Mrs. Lizzie Goddard of Pittsfield, Mass., Mrs. Morris Northrup of Cohasset and Mrs. Bellows, and named; also by one son, Joseph Ellis, who is a carpenter with the Nestle company; two sisters, Mrs. Brooks and Miss Odell Rowe of Ontario; and a brother, Charles Rowe of the Soldiers' Home in Virginia. Announcement of the date of the funeral has not yet been made.

Funeral Services for Mrs. Bailey Today

The funeral services of the late Mrs. Sarah Bailey will be held on Monday at 1:30 o'clock at the home, 2 Valleyview street, with Rev. Dr. C. S. Pendleton officiating. Interment will be held in the Oneonta Plains cemetery.

Young man desires room and board with private family. Address C-117, care Star.

Wanted—Experienced meat cutter to commence work Oct. 1. Phone 894-W.

DEATHS.

Celia Catharine Kane.

Celia Catharine Kane, the ten-year-old daughter of Mr. and Mrs. James E. Kane of 11 Morgan avenue, died at the family home Saturday morning at 9:20 o'clock, after but a day's sickness of intestinal trouble. Celia was an attendant of the First Baptist church and Sunday school and of the Chestnut Street school, and was a bright girl generally beloved by her schoolmates and associates, all of whom learn with regret of her death. She was born in Oneonta and has always resided here.

The funeral services will be held this Monday afternoon at 3 o'clock. Rev. Dr. Edson J. Farley will officiate, and interment will be made in the Plains cemetery. Surviving her are the parents, Mr. and Mrs. James E. Kane, a brother, Paul, aged 22 years, and a sister, Alice Ruth, aged three years.

Emil Walter.

Emil Walter, a native of Lohrungen, Switzerland, but since 1892 a resident of Oneonta, passed away at his home at 119 Elm street Saturday morning at 5:30 o'clock, following an illness of more than a year's duration from cancer of the throat. He had been at work with the exception of the past two months, during which he has been a great sufferer. The funeral services are to be held on Tuesday at 2 o'clock from the late residence, Rev. N. S. Dard, of the West End Baptist church, will officiate, and interment will be made in the Plains cemetery.

Mr. Walter upon arrival in America from Switzerland came to Oneonta, and at once entered the employ of the D. & H. company at the roundhouse and he remained with the company until about 19 years ago, when he left its employ, since which time he had been employed by Demerco & Riley, as a plumber.

He married in 1898 Miss Hattie Kilday, a resident of Oneonta, and she with one daughter, Miss Pearl, survive him, to mourn the loss of a kind husband and father. He leaves also two brothers, Caspar Walter and Jacob Walter, both of this city, and two sisters, both residing in Switzerland.

Mr. Walter was well and favorably known to many, he being a member of Oneonta lodge, No. 456, F. & A. M., of the Loyal Order of Moose, of the Protected Home circle and of the Veteran Firemen's association, among the memberships of which organizations he was universally esteemed. His death will be regretted by all who knew him.

Chauncey Leroy Tucker.

Chauncey Leroy Tucker died at his home in Unadilla Saturday, Sept. 18, at 6:45 p. m. Private funeral services will be held from the residence at Unadilla at 1 p. m. on Tuesday with interment in the cemetery at Laurens at about 3 o'clock the same afternoon.

Mr. Tucker was born Nov. 21, 1841, at West Laurens, a son of Eric and Emeline Tucker. In March, 1891, he was united in marriage with Mrs. Frances Ward, who survives him. Mr. Tucker was a member and an elder of the Presbyterian church at Laurens for a number of years and a member and an elder of the church of the same faith at Unadilla at the time of his death. He will be remembered by many Star readers both in this city and along the Otsego valley.

Occupies First Presbyterian Pulpit.

Secretary A. C. Lange, of the local Y. M. C. A., occupied the pulpit at the First Presbyterian church yesterday morning in the absence of Dr. Russell, and delivered a "strong appeal for a renewed interest in the work of the church. He announced that next Sunday Rev. Joseph D. Ibbotson, a member of the faculty of Hamilton at Clinton, would be in Oneonta to preach from the First Presbyterian pulpit. Rev. Mr. Ibbotson has been here on previous occasions and his return will be looked forward to by all who heard him before.

Dr. Russell is spending the remainder of the month at Atlantic City in an effort to regain his health, which of late has been impaired.

Occasionally a housekeeper "switches" to some other brand. We don't mind because we know it will make her appreciate the superiority of H-grade brand butter all the more. Lw.

The "Greatest Mother" concept which was visualized in the famous art poster used by the American Red Cross in its second war fund campaign has had its symbolism adapted to the Red Cross works of the post war era and will illuminate the main poster to be used in the Fourth Roll Call November 11-23. This adaptation will bear the title "Still the Greatest Mother in the World." Everyone is familiar with the original "The Greatest Mother in the World," the effectiveness of which has been shown in part by the fact that it has furnished a synonym for Red Cross that has come to almost a household term. More than any other symbol, except the red cross itself, the public has made it the trademark of the American Red Cross.

WHY TINNED BEEF IN FIJIS?

Leading Scientists Are Going to Find Out if Cattle Can Be Raised There.

Honolulu.—Why do the Fiji Islanders eat canned beef? The Pan Pacific scientific congress, composed of more than seventy-five of the leading scientists of the United States, Canada, Australia, New Zealand, Samoa, Japan and other countries bordering on the Pacific ocean, struggled with that and other problems during its recent sessions here.

The more important half of the knotty question relative to the Fijians and their diet, however, is why don't they raise their own cattle instead of eating tinned meat shipped across the ocean?

If there is anything to prevent cattle raising in the Fiji islands, the congress intends to find out what it is, and, if possible, remove the obstacle.

Speed of a Waterspout.

A waterspout is constantly spinning. The moment it ceases it collapses. At the distance of about a quarter of a mile above the sea level its spinning speed has been estimated at six miles a minute.

THIS TOWN LIKES AMERICA

All Men in Spanish Village Plan to Emigrate to the United States.

Madrid.—Every man in the village of Huerta Pelero, in the province of Guadalajara, has decided to emigrate to the United States, according to Pedro Martinez Embal, the town clerk, who appeared at the American consulate with 25 companions to secure visas for passports.

He declared the mayor of the town would have decided to go to America had he not been aged and infirm. The families of the emigrants will follow as soon as the men are settled in America.

The number of emigrants from every village and township of the province of Salamanca is increasing daily, recent strikes in the mining districts having caused large parades of workers to decide to leave the country.

Mutes as Innocent Bystanders.

Pineville, Ky.—Two moonshiner hands met on the roadway at night. Each thought the other was a revenue outfit. In the shooting which followed two mules met death and one shiner was shot through the hat.

GERMAN WORKS RUN BY STATE

Economic Bureau Looks After Electric, Steel and Aluminum Plants.

BUT EXTENSION IS DELAYED

Nationalization of Coal Mines May Have to Wait Change in Makeup of Reichstag—Holding Company Formed.

Washington.—Since the conclusion of the Spa conference, at which Germany agreed to increase its coal output in order to bring the deliveries to France up to approximately 2,000,000 tons per month, there has been renewed agitation among the miners for the nationalization of the mining industry in the hope that better working conditions and pay may be obtained under such a condition than with the mines owned and operated by Hugo Stinnes and his few associate coal barons. Other sections of German industrial life are also likely to be ultimately run by the state, although it will probably be necessary for the German people to elect a more radical reichstag to effect these changes, as the present cabinet is not pledged to any great extension of the principle of public ownership and operation.

In the meantime, however, as the result of earlier agitation for government control and operation of the leading industries, the national economic bureau of the German treasury department has quite a few important government controlled industrial plants to look after, according to a summary of its activities recently published in the German press and quoted from in commerce reports. The most important of the government factories are the arsenals and naval construction yards, which are now engaged on non-military construction. This includes the manufacture of steel, the making of all sorts and descriptions of machinery in large quantities, especially for agricultural and domestic purposes and the repairing of rolling stock and locomotives. Small arms works are being maintained as such so far as is consistent with the provisions of the peace treaty.

State in Control.

In order to consolidate the government interests in these different undertakings a company was formed in December, 1919, called the German Industrial Stock company, with a capital of 100,000,000 marks (nominally \$23,800,000; at current exchange, about \$2,250,000); the whole of the shares being in the hands of the government. The state thus exercises either full or partial control, according to the number of electrical, electrochemical and other undertakings.

The huge generating station at Zschornitz, near Buttefeld, belonging to the Electric Plant company, is controlled. It provides the current for the state nitrogen works in Wittenberg, obtaining the necessary fuel from adjacent lignite mines. It has an output of 100,000 kilowatts and, besides running the nitrogen plant, supplies current to the Berlin Electric works, and will shortly extend this supply of energy to Leipzig and the province of Saxony. The Central German Power Works company comprises the central power station at Senftenberg, formerly belonging to the Aluminum works, Lauta with an output of 60,000 kilowatts, and the Niederauitzer Power plant, near Spremberg, with adjacent lignite mines, and with an output of 20,000 kilowatts. Up to the present the electric energy developed by these two plants has been utilized in the manufacture of aluminum and iron. In the future it will also be employed to supply electricity for the surrounding industrial districts.

The East Prussia central station, which was recently erected to provide the province of East Prussia with electric power, is controlled, as also is the Alz works, Munster, which was formed in 1918, in conjunction with the Dr. Wecker Alexander company, for electrochemical manufacturing, to utilize the water power of the lower Alz. The output is, roughly, 20,000 kilowatts. The Wurttemberg Rural Electric company was reorganized in 1919 to enable the state, with the consent of the Wurttemberg government, to take a dominant interest in the supply of electricity to the province of Wurttemberg.

Great efforts were made during the war to put the manufacture of aluminum on a firm footing, in order to make Germany independent of foreign supplies. Plants were erected and the manufacture started at Horrem, Bitterfeld and Rammelsburg, each factory having an output of 3,000 tons of aluminum per annum. In 1916 the Erftwerk company was taken over by the government and reorganized with a capital of 25,000,000 marks. The branch works of this company, in Grevenbroich, Lower Rhine, have since fired up to produce 12,000 tons of aluminum per annum.

Iron and Steel Mills.

In regard to iron and steel mills the Pöcher Smelting company and the Pöcher Rolling Mills company are controlled. These works have a capital of 20,000,000 marks, of which the government holds 25 per cent. The chief features of the enterprise are that the mines producing the ore are in close proximity to the smelting and rolling plants and that situated as they are in a mountainous country, they are in a position to take advantage of the enormous head of water in the Rhine for power. In the war days, when the output of iron and steel was so much needed, the company was also producing a large quantity of iron and steel for the state, as also pig-

WOMEN FORM REGIMENT

Left to right—Maj.-Gen. C. B. Gay and Col. Helen Bastedo, organizers of the regiment exclusively for women, now being formed in New York. Colonel Bastedo is also commander of the Women's Motor corps. Over a hundred women have already enrolled and drills are held in the Seventh Regiment armory, New York city.

sented on the board of the Government Holding company. The Bavarian Lloyd held a commanding position in transport work on the Danube and neighboring rivers, but lost the greater part of its vessels at the end of the war. Negotiations are, however, proceeding between the different government departments and others interested to put the company once more on a commercial footing. The German ship-salvage company "Odin," Berlin, with a capital of 5,000,000 marks, was originally formed to carry out work in connection with the salvage of transports and other shipping in the Baltic. The company was not very successful owing to the unsuitable methods of salvage adopted. It is now proposed to divert the company's activities to towage and lighterage work.

According to a resolution adopted by the German Metal Economic league, reported by the Wolff Telegraph Bureau, the export of 50 per cent of all pig metals coming from German mines during May, June, July and August is to be permitted. No limit is placed upon the export of all partly manufactured metal products, provided they are not sold at prices under the domestic rates. German manufacturers may import raw metals, if they do not pay more than the standard prices in the world market. German export prices on semi-manufactured iron and steel products have been materially lowered during the last few months. Bar iron selling at 6,236 marks in April has been cut to 4,000 marks per ton for export to Holland and Switzerland and to 3,650 to Denmark, the latter being the same as the domestic rate in Germany. The iron industry is protesting against further payment of export duties.

AUSTRIA ENDS GRAIN CONTROL

Socialists Are Beaten by Big Vote on Food Measure by Combination.

Vienna.—Austria has abolished government control of her domestic grain supply after a bitter political fight in which the advanced parties were defeated by an overwhelming vote of the combined Christian socialist grosse Deutsche parties.

Government control, it was alleged, was a "farce."

The economic experts of the socialist wing declared the control act a reactionary measure in favor of the agrarian element and predicted that bread prices would rise because of it. Advocates of the measure, on the other hand, insisted that in spite of the farmer withholding his foodstuffs from the government requisition and sold to the "left hand" trade.

Sandwiches---

The housewife who masters the art of the sandwich has the key to good health and good appetite for her family. For the child's lunch, sandwiches. For the unexpected guest, the Sunday right spread, the after-theatre bite—again sandwiches. For momentary enjoyment and convenience, at any time and all times sandwiches.

Here is sandwich wisdom for the man in who wants to perfect sandwiches.

1. Use a sharp knife, cutting thin.
2. Use a sharp knife, cutting thin.
3. For heavy sandwiches leave crusts on all butter to the edge.
4. It is more economical to beat butter to cream and spread Bread before cutting.
5. Cooky-cakes may be used for cutting round or fancy shapes. These should be spread after they are shaped.
6. Avoid the slices in making sandwiches.
7. Sandwiches made of equal parts having long time to stand in a cool place will be better.
8. Sandwiches for parties should be spread after they are shaped.
9. Avoid the slices in making sandwiches.
10. Sandwiches made of equal parts having long time to stand in a cool place will be better.

Watch for our delicious receipts. H. Nye's "Nu" Bread.

Make filling of one cream cheese, or an equal quantity of cottage cheese, two cups of mayonnaise and one small bunch of watercress. Spread on bread in nam. If desired, add the cottage or French dressing to the filling. Spread between two slices of bread, or white, rye, or whole wheat Bread.

The more part eaten the more you will enjoy it.

Nye's "Nu" Bread

—the tasty loaf that a ways makes the best bread.

NYE'S BAKERY

CHESTNUT STREET

CHEERED BY TENANTS

Judge William Morris was cheered by tenants and court attaches when he removed his robe and, standing in his shirt sleeves, told one Chicago landlord he could "go to the Supreme court, or to hell."

Saves Half Million on School Books.

More than \$500,000 has been saved by Kansas by the state publication of school books, according to Tom McNeal, member of the state textbook commission. "Not less than \$100,000 will be saved in the next three years on a geography now being published," he said.

Planets Without Moons.

The only planets that have no moons are those nearest the sun, namely Mercury and Venus. Counting our own moon, the system of planets possesses no fewer than 27 moons.

WHAT SHAPE HAS MOTH HOLE?

On This by No Means Simple Question Hinges Result of an Omaha Lawsuit.

On whether a moth makes an oblong hole or a round hole when he stinks his way into the more saccharine portions of dad's last winter overcoat or sister's summer furs, hinges a law suit in Justice Collins' court, brought by an Omaha store against Miss Josephine Hill of Council Bluffs. The store seeks to enforce payment for an \$80 suit which Miss Hill is alleged to have purchased, says the World-Herald.

According to the girl's testimony, a week after she bought the suit she found a moth hole in it. She returned it to the store. The suit was mended and given back to her with instructions to wear it 30 days and bring it back at the end of that time if not satisfactory.

Miss Hill testified she wore the suit for 30 days, placing it carefully on a hanger in her closet each night. At the end of the specified period, examination, she said, revealed not one but a whole community of holes. She refused to pay for the suit, and the store took the case into court.

After one clerk for the store told the court the holes complained of couldn't be moth holes, because any self-respecting moth eats a round hole, while those under discussion were distinctly oblong, and after Miss Hill had made an exhibition of the holes and another clerk had suggested that Miss Hill might have worn the holes in the skirt by rubbing against her typewriter desk, Justice Collins looked wise and took the matter under advisement.

Tarantula on Shoulder.
Devil's Lake, N. D.—After setting down a crate containing a bunch of bananas that he carried across the store on his back, John Lunak, an employee in a grocery store here, felt something crawling on his shoulder, and, putting up his hand, came in contact with the largest tarantula ever seen in the city. A bite from the creature would have meant almost certain death.

Lovers Tie Feet; Plunge Into Sea

Hilo, Island of Hawaii.—Strapped together as they leaped into the sea to frill a double suicide pact, Uye Tafaburo, a Japanese of North Kohala, and Makino Kikuzama, wife of another Japanese, partly failed in their endeavor. Tafaburo was drowned but the woman was pulled from the surf by W. Pinehaka, jailer of North Kohala.

Pinehaka saw the pair, with ankles and bodies tied together, leap as one into the sea from the rocks below Hilo, on the North Kohala coast. He scrambled down to the water's edge just as the tide washed the woman back to shore, the bonds that tied her to her companion having broken.

Later Tafaburo's body was recovered by Hawaiian divers. The woman's infant child, wrapped in her obi, or girdle, was found hanging on a tree not far from the spot where she had failed in her attempt at suicide.

WILL SELL WHOLE TOWN

Person Who Owns Buildings Will Sell All for \$10,000.

Anybody desiring to own a whole town can buy Moneta, Wyo., for \$10,000. A Kansan, who resides at Moneta, is offering the entire town for sale at that price.

He agrees to give title to one 18-room hotel, one eight-room house, one two-room house, one five-room cottage, one four-room building, one combined laundry and meat house, two large barns, one icehouse, a miscellaneous assortment of outbuildings and 40 building lots. That's all of Moneta except the furniture in the buildings listed, and this Kansan offers to throw in without cost to the purchaser of the town.

Moneta is located on the Chicago & Northwestern railroad about 80 miles west of Casper. It is in Fremont county, and on Poison Spider creek.

Safeguarding Airmen.

Because of the possible disastrous failure of an airman's oxygen-supply apparatus at great altitudes, the United States bureau of standards has devised a reliable method of testing the equipment in the laboratory. All the conditions of high-altitude flights are accurately reproduced, says Popular Mechanics magazine. Decreased pressure is obtained by inclosing the equipment in a bell jar connected to an air pump.

Airplanes for the Chinese.

The Chinese are acquiring a large number of airplanes which will be used by the government for various purposes, chiefly in carrying passengers and freight to and from some rich mining countries, which have been heretofore almost inaccessible.

PLAN TO WATER VAST DRY AREA

Project Up to Congress to Reclaim 4,000,000 Acres at \$250,000,000 Expense.

TURN DESERT INTO EMPIRE

Members of House Committee on Appropriations and Group of Western Colleagues Make Inspection Tour of Government Projects.

Washington.—Plans for putting 4,000,000 acres of land on the agricultural map of the United States by a program of reclamation calling for the expenditure of about \$250,000,000 over a ten-year period are to be considered seriously by congress when it reassembles.

Members of the house appropriations committee and a group of Western colleagues who have been making an inspection tour of the government's reclamation projects and of the national parks in company with officials of the department of the interior, after traveling 10,000 miles by train and 4,000 miles by auto and viewing the irrigation achievements since 1902 have come back earnest converts to a big reclamation plan.

Arthur P. Davis, director and chief engineer of the reclamation service, who accompanied the congressional tour, is now in the West visiting other projects and preparing his recommendations for the annual estimates to be submitted to Secretary Payne.

Secretary Payne Enthusiastic.
Secretary Payne, who has just inspected two of the government's principal reclamation projects at Yakima, Wash., and Shoshone, Wyo., has become an enthusiast regarding the desirability of utilizing America's undeveloped resources by building new commonwealths in the arid West.

While the reclamation service is restricted in its estimates to \$8,000,000 or \$9,000,000, equivalent to the amount received by sale of public lands, sale of water and returns on irrigation developments, Secretary Payne has already declared his intention of asking congress for \$12,000,000 to open up 160,000 acres of reclaimed land in small farms, with special consideration of the Shoshone project.

Representative Will R. Wood (Rep.) of Indiana, a member of the appropriations committee, says that he and others who have just inspected these projects have been converted from their previous reluctance to make such large appropriations and now believe that it is a national duty thus to create opportunities for its citizens to establish themselves in permanent homes on such fertile areas, wrested from the desert.

Many who opposed the "farms for service men" proposition in the last congress on the grounds that it was camouflaged reclamation have pledged their support to an out-and-out irrigation development.

Senator Jones of Washington introduced a bill in the last session which seeks an appropriation of \$250,000,000 for reclamation work and the interior department has drafted a program that calls for more than that.

Turn Desert Into Empire.

Senator Charles L. McNary of Oregon wrote a favorable report last December from the committee on irrigation and reclamation of arid lands. He pointed out that under the reclamation act passed in 1902, the government has expended in construction work a little over \$123,000,000, that water for irrigation purposes has been made available for 1,780,000 acres of land, which had been largely barren, desert waste and unproductive. It is now worth from \$100 to \$750 an acre, with an average crop value per acre of \$63.60. "Out of the uninhabited and almost worthless desert has been carved an empire of nearly 2,000,000 acres, intensively cultivated and producing crops whose annual average gross returns per acre are about double those of the rest of the country," says Director Davis of the reclamation service.

While the bill introduced by Senator Jones calls for \$250,000,000, the reclamation service is now working on 30 projects which call for a total appropriation of \$302,000,000, but returns would be coming in from some of the earlier construction before the entire expenditure was made. Of the 4,000,000 acres which it is proposed to add to the farm lands about one-fifth is public land belonging to the United States government.

Director Davis has figured out that the average value of lands in the projects did not exceed \$10 an acre, or \$17,000,000, when the government irrigation was started in 1902, and that today they easily represent increases in land values of \$536,000,000 due to this work, and has prepared a detailed report on this for congress. He figures that only 3.5 per cent of the total ultimate cost will be finally charged against the government.

Winged Expresses.

Blue rock pigeons fly from 23 to 25 miles an hour. Pheasants at best beat cover about 23 miles an hour, and partridges from 28 to 34 miles an hour. Carrier pigeons have been found to do as much as 50 miles an hour.

New Germ Foe.

Recent study has proved that the juices of lemons, oranges, onions and garlic kill disease germs. Those of lemons and garlic are most effective in this way. It is the free acid in the fruit juices that does the business.

Philanthropy Under the Ban.

In Burchett it is rather a suspicious thing to give money for a charitable object. It is supposed to mean that the donor has been very wicked and that he is desirous of making amends.

IRISH JUSTICE WITHOUT JAILS

Sinn Fein Courts Return Most Unusual Findings in Some of the Civil Cases.

Dublin.—Some of the decisions of the recently organized Sinn Fein courts disregard all precedent of court procedure.

They must result to subterfuge in criminal sentences because they have no prisons, but their findings in civil cases sometimes are most unusual.

A will case was recently tried in a district court. Two brothers were to operate their father's farm jointly after his death until one of them should decide to marry. Then it was to be divided between them. One of the brothers became engaged and maintained that as he was the first to set up a new home of his own he should divide the estate to suit himself. The other objected. The Sinn Fein jury decided that the engaged man should be allowed to divide the farm, but that his brother should have the right to select the division he wanted.

A man who stole something from a farmer was sentenced to work 30 days for the farmer and return the article. Another who stole a set of harness was paraded through the village streets with the harness tied about him, then taken to the owner and made to apologize as he returned the harness.

Six German Ghouls Captured.

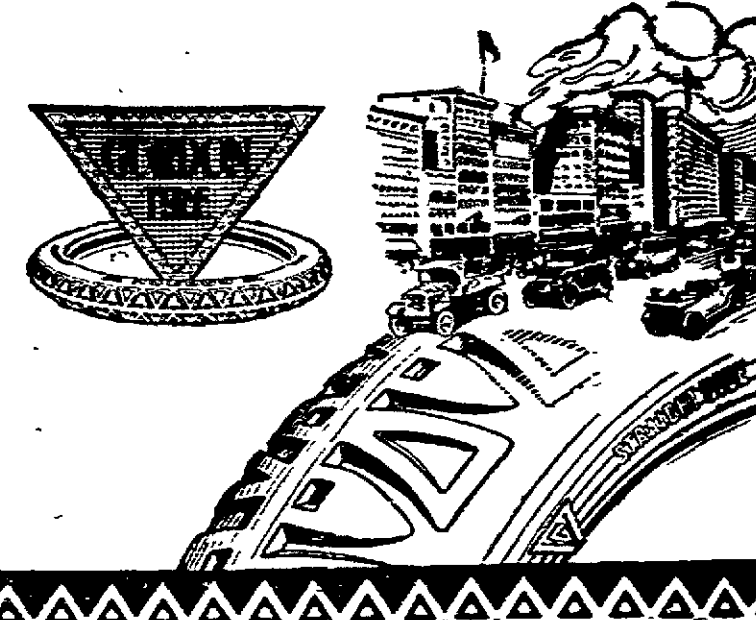

Six Germans employed in exhuming bodies at Coblenz bridgehead, American headquarters, have been arrested for stealing gold teeth.

Fourth Roll Call

November 11—25, 1920

Canton Rides on Gordons

In a small town people pretty generally know the character of their neighbors. And this illustrates a big point with Gordon Tires.

Out in Canton, Ohio, where Gordons are made, everyone knows what goes into these tires. Cantonians know that Gordons are truly custom built—one at a time, each one right. And in spite of the great number of competitive tires made right in the State, Canton pretty generally rides on Gordons.

Gordons are guaranteed for 6000 miles (8000 on Cords) but with decent treatment they usually run several thousand more. We've known lots of Gordons to do 12000 to 15000 miles.

Do you need a new inner tube? Try a Gordon—Pure Gum laminated, usually outlasts a car.

Oneonta Battery & Tire Co.

Whose Business Is Life Insurance Only

You Can't Help Liking This Range

The GOLD MEDAL GLENWOOD is in reality a combination range consisting of two complete ranges using different fuels, with neither one interfering in any manner with the other.

Coal supplies the fuel for one, and gas for the other. So far as the use of these two fuels is concerned, it is exactly as though you had a coal range and a gas range. The difference is that they occupy the same floor space instead of being two separate ranges in two different parts of the kitchen.

You may use the coal and the gas at the same time, or either one without the other. You have gas in warm weather and coal in cold weather. But at any time you wish to do more baking or more cooking, you have the advantage of using both fuels and both ovens at the same time.

It responds to your cooking art so quickly and efficiently, you will find that cooking is one of the greatest pleasures in your home.

Call and See Them and you will understand at once why a Glenwood Range "Makes Cooking Easy"

Glenwood

Baker Brothers, Oneonta

Certain-teed Roofing Costs Less to Lay

You will appreciate the low cost and convenience of laying Certain-teed Roofing. Skilled labor is not required to lay it properly. You save much of the expense of hiring trained workmen and avoid delays because of a scarcity of such men.

But this is only one of the Certain-teed economies. It also costs less to buy and less to maintain than any other type of good roofing.

In addition, Certain-teed roofing is weather-proof, fire-retarding and spark-proof. It is guaranteed for five, ten or fifteen years, according to weight. Experience proves that it usually outlasts its guarantee by years of satisfactory service.

See your dealer about Certain-teed Roofing. If he can't fill your entire order from stock, he can get what you want quickly from a nearby Certain-teed distributing center.

BOOMS LIKE GUN WHEN BLOOMING

Tree Provides Burglar Alarm to
Keep Thieves Away.

IS ALL AROUND PROVIDER

Cocoon Palm Furnishes Natives
With Nearly All the Necessities of
Life and Has as Many Uses as
There Are Days in the Year—Nut
When Green Is Food and Drink—
By-Products Are Valuable.

For the coconut palm are found more uses than for perhaps any other tree in the world, says the American Forestry Association of Washington. This tree booms like a gun when blooming and provides the "apple jack" of the tropics for the natives as well as its own burglar alarm to keep thieves away from its fruit. It is said by the people whom it furnishes with nearly all the necessities of life that it has as many uses as there are days in the year; but that seems to be an underestimate; for surely 365 days necessities would never meet the demand of a modern up-to-date man or woman of the temperate zone.

The coconut palm is a magnificent tree often reaching a height of 100 feet and crowned with wide-spreading fronds often 20 feet in length. The frond consists of a strong mid-rib which terminates in long slender leaflets, giving the entire frond the appearance of a gigantic feather. Among the massive leaves growing from the main stem is the fruit, usually in clusters of from ten to twenty nuts, from eight to twelve inches in length and from six to eight inches in diameter.

Original Habitation Not Known.

This palm is so generally spread over the tropical world that its original habitation is not known, the American Forestry Magazine points out. It luxuriates in the sea air and abounds along the east and west coasts of southern India. The west coast of Ceylon from Colombo southward for over one hundred miles is a dense wilderness of coconut palm plantations. The Malay peninsula is fringed with these graceful trees. They are everywhere over both the East and West Indies and tropical America. The huge triangular nuts are waterproof, as though made to navigate the seas and reach every shore, which they surely have done, for on every island and coral islet of the Pacific ocean they are found. They reach their greatest vigor by the sea; on the seashore they lean towards the water as though to send their seed adrift for other lands.

The spathe or flower case is of a hard woody substance from four to five feet in length, and when this case bursts to release the blossom it is like the report of a gun. These huge flower cases are tapped at the base for the sweet sap they contain. The sap is boiled down into an excellent sugar; it is fermented into arrack, the apple-jack of the tropics.

Food and Drink.

The nut when green is food and drink; when ripe, its husk yields the coir fiber from which mats, ropes cordage, brushes and woven coir matting are made. The inner hard shell is made into cups, dippers and other vessels; the kernel is the copra of commerce used in making confections. From it the valuable commercial product called coconut oil is pressed, and from the oil candles, butter and soap are made. An average yield of a tree is 60 nuts. A thousand nuts will produce 25 gallons of oil. The climate of Ceylon is well adapted to all kinds of palms and embraced in her many plantations there are said to be over 80,000,000 trees.

The wealth of the Ceylonese is usually estimated by the number of coconut trees they own. Native boats from the Maldive islands sometimes arrive in Ceylon, built, rigged, provisioned and laden with the produce of the coconut palms. A shipwrecked crew was cast upon the South Sea Islands where the party remained for several months living solely on coconuts and a little broiled fish: when they returned they had all increased in weight.

By-Product Valuable.

The by-product is oil-cake which is of great value the Forestry Magazine adds. The trunks of the trees are used for innumerable purposes besides house building and furniture, and the wood in Europe is called porcupine wood because of the vascular growth resembling the quills of that animal. Mature coconuts fall from the trees; but planters cannot always wait for them to fall, and there is no pole or ladder to reach 100 feet; climbing is the only way, and coconut tree climbing is a trade in coconut countries. Professional tree-climbers have the speed and agility of monkeys. To facilitate the operation they place a strong loop of coir rope around the feet near the ankles; this enables them to grip the tree securely and ascend the highest trees with amazing alacrity.

Coconuts being the native wealth, coconut thieves are not uncommon. The owners of plantations have a unique system of thief alarm; dry fronds are bound to the tree from the ground upwards for about twenty feet; and it is impossible for the thief to remove or climb over these without making a great noise which arouses the watchman who is never far away.

The Ear's Capacity.

The most practiced ear cannot distinguish in one second more than from nine to twelve successive sounds.

The most valuable pearls are round, smooth, and lastly

NOTED ZIONIST CAPTAIN DECORATED BY BRITISH

Enemy Subject Is Honored for
Daring War Time Achievements.

When Capt. Alexander Aaronsohn, member of the famous pioneer Zionist family of Palestine, was recently decorated with the D. S. O. by King George of England, it was probably the first time that an enemy subject was honored for a war-time achievement. Captain Aaronsohn was given the D. S. O. for penetrating the Turkish lines and bringing military intelligence to the British which was one of the principal adjuncts of the successful campaign carried on by General Allenby in wresting the Holy Land from the Turks. At the head of the marvelous secret organization by which British headquarters was being informed of Turkish movements, were Sarah, Alexander and Aaron Aaronsohn; the latter ranked as one of the world's most celebrated agriculturists because of his discovery of wild wheat, which would have revolutionized dry farming throughout the world. Sarah Aaronsohn committed suicide rather than disclose the workings of the organization after she and her aged father had been tortured for days by the Turks. Another brother is now an invalid, due to similar Turkish tortures.

Capt. Alexander Aaronsohn.

The Aaronsohn family came to Palestine with the first group of ardent Zionist pioneers over 30 years ago from Roumania. Their colony near Haifa was a model farming community. It was here that Aaron earned on his agricultural experiments which brought him world-wide fame. The Turks, when they captured and began torturing the Aaronsohns for intelligence work, destroyed all his priceless experiments and note-books. Aaron himself was killed over a year ago when the airplane in which he was riding from London to the peace conference in Paris crashed near Boulogne. His knowledge of Palestine, particularly of the location of water, was considered by the British staff as one of the biggest factors in their successful campaign against the Turks.

The Aaronsohns, as well as the other inhabitants of Palestine, were Turkish subjects, but the terrible oppressive measures launched against the Jews by the Turks shortly after the outbreak of the war forced them to seek help from the allies to save their people from destruction.

U. S. NEEDS 26,000 TEACHERS

Country High Schools Face Serious Shortage in Autumn.

Twenty-six thousand high school teachers are needed in the United States to fill vacancies in the schools opening in September, according to the federal bureau of education.

The total number of teachers needed in this country is 98,775, according to the bureau. These can be obtained in just two ways, by recalling former teachers, or by placing teachers with less than a college education in charge of high school classes.

Name Greyhound.

The name greyhound appears to have no reference to the color, but is derived from the Icelandic "grey," meaning a dog.

To Clean Furniture.

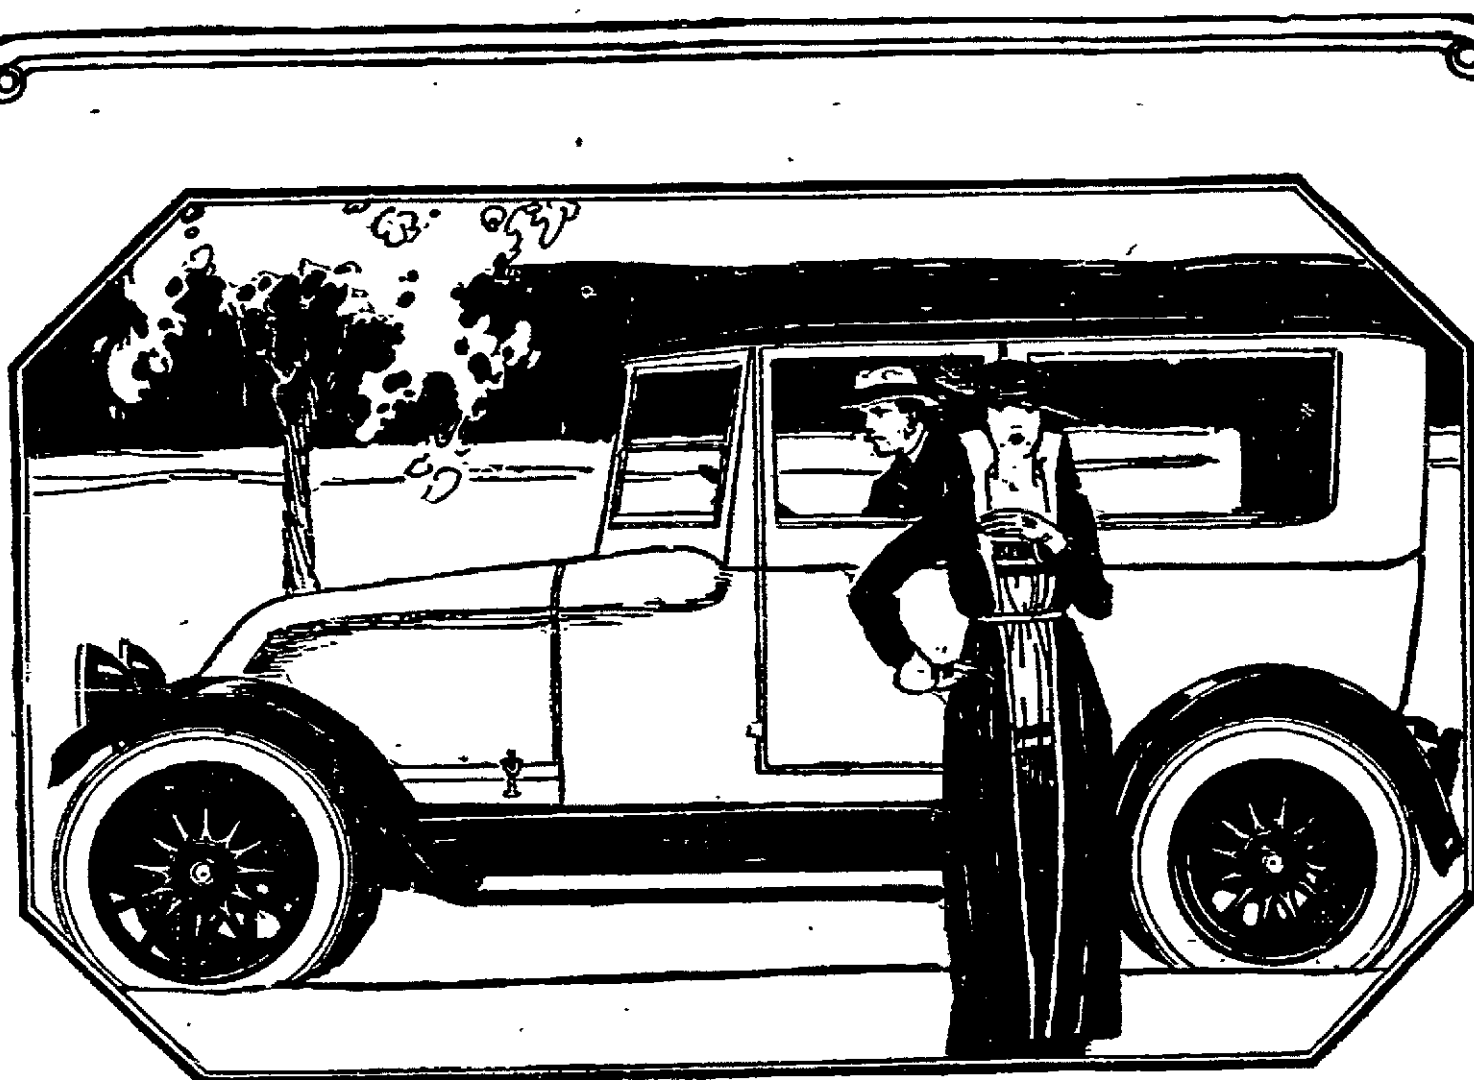

If, instead of spirits of camphor, camphorated oil be used in cleaning furniture, it will not only remove the white stains but restore the polish.

THE FRANKLIN SEDAN

MOTORISTS are turning to the Franklin Sedan in large numbers because they are convinced that it does what a car should do.

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation
(National Average)

Taken together, these results indicate the greatest automobile efficiency.

Taken separately, they are the best evidence of another kind of efficiency, even more important.

1. 20 miles to the gallon of gasoline also means Easy Control

Light weight and less friction make the Franklin roll more easily than any other car. Easy-rolling light weight not only uses less gasoline, but is safer—and easier to start, to stop, and to guide.

2. 12,500 miles to the set of tires proves Comfort

The Franklin does not pound out tires. Neither does it jolt nor jar its riders. Comfort and tire economy depend upon the same thing—flexibility—in which the Franklin stands alone.

3. 50% slower yearly depreciation indicates Reliability

Depreciation is the best gauge of car reliability. Franklin quality of materials and kind of construction give less trouble and require fewer repairs over a longer life.

MONKEY MOTHERS PUPPY

The most affectionate little mother of all at the children's playground at Golden Gate park, San Francisco, Cal., is none other than Charlotte Taylor, superintendent of the playground, was given an orphaned puppy. Charlotte took it upon herself to care for him, and she does. Taylor is the only one who dares venture within a "safe distance" of the puppy while Charlotte is around. She is shown holding the orphan while Taylor holds the bottle.

FIREMAN DUESLER KILLED

Resident of Schenectady Bused Car Overturned Engine Near Monticello—Tram Delayed for Hours While Wrecking Crews Remove Body and Clear Track.

D. A. H. Fireman Clarence Duesler, resident of 11 1/2 S. Schenectady and employed on the wreck train from that city, was probably instantly killed at about 1:30 Saturday afternoon, when the train collided with a hand car at a point about five miles south of Albion and his engine turned over down an embankment. His body was not recovered until about 2 a. m. Sunday morning. It was turned over to the undertaker at Albion and later removed to Schenectady.

The train was in charge of Conductor Hennold and Engineer Wayne, both of Schenectady, and with engine 1329 it was moving south when the accident occurred and at a speed of about 25 miles an hour. The impact derailed one empty box car and the caboose as well as overturning the locomotive over the bank. The track was torn up for a short distance. Wrecking crews from Oneonta and Colonie were sent to the scene of the wreck and the track was not clear and restored until nearly 4 o'clock Sunday morning.

Train 305, the fast evening train south bound, and the south bound sleeper were run to Verheesville and thence over the West Shore to South Schenectady and from there to Delanson, the former due here at 5:49 p. m. not arriving until midnight and the latter until about 5 o'clock. Trains 309 and 311 north bound were run via Mechanicville and thence to Albany and were quite late in reaching the latter city.

Fireman Duesler was 17 years of age and unmarried. Though little known here, much regret is expressed at his death.

There was another wreck at Thompson on the Pennsylvania division on Saturday and while no one was injured it served to delay freight movements, which are running heavy.

CHILD SUSTAINS BROKEN LEG

In Motorcycle Accident at Otego When Tire Flies Off.

Late Saturday afternoon, at Otego, May Genuag, two-year-old daughter of Mrs. Louis Genuag, of 40 Jackson avenue, this city, sustained a badly fractured right leg and in a rather peculiar manner. The girl, with her mother and two young sisters, was riding in the side car attached to the motorcycle of Benjamin H. Ward and while passing through that village the tire on the wheel supporting the side car came off, causing Ward to lose control of the motorcycle. He was moving along at a good pace and before he could stop the machine it had collided with a telephone pole.

The injured daughter was riding on the lap of the mother and when they were thrown out by the impact, the child struck the pole and the mother's body came against her with such force that the right leg of the child was broken below the knee. None of the other occupants of the vehicle were injured beyond some slight bruises.

When it was found that the young daughter's leg was broken, she was hurried to the Fox hospital in this city, where the injured member was dressed. The surgeons were unable to reduce the fracture that night or today, owing to the condition of the injury, but hope to be able to do so today. They see no indication of any permanent injury to the child. The father of the little sufferer was killed on the D. & H. railroad in an accident last winter and misfortune seems to be following the family.

The entire household goods of the late Stephen Wheeler will be sold at private sale Saturday and Monday, September 18 and 20, at his late home in Colliers village. 2t

LACK OF SHIPS
HALTS TOURISTS

An Available Accommodations Are Booked Three Months in Advance.

PASSPORTS AT A PREMIUM

"Ships, Ships and More Ships" Is Plea From United States Ports—Travel Only Half What It Was in 1914.

New York.—The slogan of "ships, ships and still more ships" so effectively used during the war to speed up America's ship-building program as a defiance of the submarine campaign still is heard in American seaports.

It comes, however, not so much from those having freight for transit as it does from those who desire to make trips to foreign shores on business or pleasure.

Steamship accommodations for all lands, despite more than a doubling of pre-war time tariffs, and rigid restrictions as to passports are at a premium.

All Accommodations Booked.

Representatives in New York and other terminals of passenger-carrying lines say that all available accommodations are booked as far as three months ahead. The unfortunate business man faced with the need of making an unexpected trip abroad, is forced to depend on possible cancellations of previously engaged passage on the part of someone who at the last moment is prevented from sailing.

On many ships third-class accommodations hold men and women who are financially able to travel in the best that the ship affords. It is no infrequent occurrence for a staid banker, or a wealthy head of a large business house to be found booked with the humble alien laborer returning to the land of his birth for a visit.

It was recently said by the head of a large line in speaking of tariffs, that in 1914 a man could purchase a tourist ticket including rail fares and hotel accommodations for a trip half way around the world for the same sum that he is now compelled to pay for a one-way ticket from New York to a Mediterranean port.

Records of departures and arrivals as kept here by the Steamship Men's association show that despite the very apparent rush, travel is only about half, as to number of passengers, what it was in 1914. In May and June of that year there sailed from American to transatlantic ports 164,300 persons of whom more than 100,000 were classed as third class. In the same months of 1920 the outgoing total was 80,323 of whom 50,000 were third class.

Arrivals Show Slump.

Of incoming passengers in one month of 1914 there were 105,100 persons. The corresponding month this year showed 45,120 arrivals.

The rush this year and the difficulty in getting accommodations is accounted for by the fact that there is need of "ships, ships and more ships" of the passenger-carrying class. Available tonnage, due to the ravages of the war, is greatly depleted. The North German Lloyd and the Hamburg-American lines, which prior to the war carried a large percentage of the transatlantic travel, do not exist.

In addition, many of the big lines of allied flags are gone, as for example, the Lusitania. Almost all the ships of the pre-war fleet of another large British line were submarine victims. Other ships were of a necessity laid up for periods of more than a year for reconditioning due to their accommodations having been ripped out with axes to make them into troop carriers. An example of this is the huge Olympic, which but recently was returned to her passenger-carrying trade.

Boy Beats Girls Baking.

Worcester, Mass.—Wesley Sheldon, a fourteen-year-old boy, of Ashburnham, was declared the winner of the Worcester County Farm bureau bread-making contests, in which many girls competed from every city and town in the county. During the period of three months he made 58 loaves of bread in 19 bakings, performed 78 hours of housework, and used 45 hours in doing errands for his mother.

Bright.

You can't always tell how sharp a fellow is until you sit on his point of view.—Cartoons Magazine.

Union Breath.

The union breath dreaded by many is done away with if a little milk is drunk afterward.

War Cost 35,380,000 Lives: Serbs Heaviest Sufferers

The total cost of the World war in lives has reached the appalling figure of 35,380,000, according to final estimates by the Copenhagen society for the study of the consequences of the war, and made public in London.

These figures were reached after an exhaustive study of the decrease in birth rates of the countries involved, as well as increase in deaths from causes directly attributed to the war.

Actual military deaths in killed totaled 9,822,000 according to the report. Each European nation involved lost the equivalent of 8.8 per cent of its population from all causes. Each nation's actual killed equaled 2.5 per cent of its population. Serbia was the heaviest sufferer of all the nations involved in the war.

NESTLE TO CLOSE PLANTS

Announcement Received That New York State Plant Will Close October 1—Over Production and Lack of Markets Given as Cause.

Still further complications of the milk situation in this section follows the announcement that the Nestle Food company will close its plants in Oneonta and Cooperstown and in fact all its 17 plants in New York state on October 1 for an indefinite period. It is stated that the company has a large supply of manufactured products on hand and needs that all markets are supplied and that no available outlet is in sight for any further production for a considerable period, with the result that the company has no alternative but to cease operations until conditions change.

While no positive statement is made, it is intimated that the company is not in any way influenced by other developments in the milk market situation, but controlled by conditions which it is powerless to remedy at the present time.

The company has offered to make into butter and cheese and other by-products of milk the milk produced by its patrons at the lowest possible cost and permit them to sell the manufactured product wherever and whenever they find it advantageous. This is expected, will be put in concrete form before the first of the month arrives, after the officers of the company have had an opportunity to compute what the cost will be to the company of taking care of the milk of its patrons during the emergency.

The situation is not reassuring for the milk producers. The officers of the Dairymen's league of the county are to have a conference early the present week, and some definite action upon the question is expected. It is understood to be the plan to make arrangements to care for the milk of all members and to secure for them the best possible returns for their milk.

Funeral of Lynn H. Beamish.

The funeral of the late Lynn H. Beamish of 19 Pearl street was held at the Lutheran church yesterday afternoon, following a brief prayer service at the house. The services were conducted by his pastor, Rev. P. M. Luther, and there was a large attendance of relatives and friends, and of the members of the L. O. O. M., the Mooseheart legion and the Carman's union. Mr. Luther delivered a most impressive and fitting discourse, and the body was taken later to Harwick Seminary for interment in the family plot. Many accompanied the family to the place of burial, there being not less than 25 cars in the cortege. The service at the grave was conducted by the L. O. O. M.

There were many beautiful floral tributes, including pieces from the Moose and Carman, besides many from personal friends. The bearers were Carl House, Merton Blanchard and Jacob Cook, representing the Moose, and William Cooley, George Gibbs and DeForest Whitman, from the Carman's brotherhood. Many relatives and friends from out of the city were present at the funeral service and interment.

Dance at Richmondville.

Richmondville post, 249, of the American legion, announces it will hold a dance on Thursday evening next in that village in an effort to raise funds for the work of the organization. Zita's orchestra of Albany will furnish music for the round dances and Bulson's of Schenectady for square dances. The bill is \$1.25 per couple, and a general invitation is extended to the public.

If you like tea at all, Bawa will absolutely delight you. 1w
